Foreground Planting of Sargent Juniper

Copyright, House Beautiful, June, 1955

"Flowering Dogwood planted alone makes a handsome, symmetrical tree for important locations such as beside a motor court. To reach such perfection, these young trees must have been allowed to develop naturally in widely spaced nursery rows." — From HOUSE BEAUTIFUL, June, 1955.

Rosedale Nurseries

HOWARD C. TAYLOR, President

THIS IS our 57th year of growing and planting. While perhaps not the oldest nursery nor the largest, our emphasis remains as ever on the finest. There have been many improvements in our handling of plants over the years and I expect these improvements to continue. It is our greatest desire to be first in bringing real improvements.

We at Rosedale are convinced that with reasonable care, no Rosedale plant will fail to survive and thrive. With this thought in mind, we shall always fairly adjust any losses whatsoever should such occur.

Howard C. Taylor

HOURS: 7:30 to 6 p.m. Mondays through Saturdays
9 to 5 p.m. Sundays, March 11, 1956 through June

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value.

GUARANTEE

The success or failure of all living things, including plants, depends upon their care. Good soil and sufficient water are necessary for plants to live.

In consideration for adequate care of all plants purchased from us, we guarantee:

All nursery stock to be in first class condition when delivered to the customer. Please advise us promptly of any damage or loss in transit.

Our nursery stock to be true to name. Should any label be untrue we agree to replace the stock or refund purchase price at the customer's request.

We will replace at one-half the purchase price any woody plants which, if planted in the Spring, fail to survive through the Summer, or, if planted in the Fall, fail to leaf out the following Spring. Plants originally planted by us shall be replaced as above, plus the cost of planting.

No. 863

STATE OF NEW YORK
Department of Agriculture and Markets

DANIEL J. CAREY, Commissioner

CERTIFICATE OF INSPECTION OF NURSERY STOCK

THIS IS TO CERTIFY that the nursery stock of ROSEDALE NURSERIES, INC. of EASTVIEW, County of WESTCHESTER, State of New York, has been duly examined in compliance with the Agriculture and Markets Law, and has been found to be apparently free from all injurious insects and plant diseases. This certificate is valid until October 1, 1956, unless revoked before that date.

Dated, Albany, N. Y., Sept. 2, 1955.

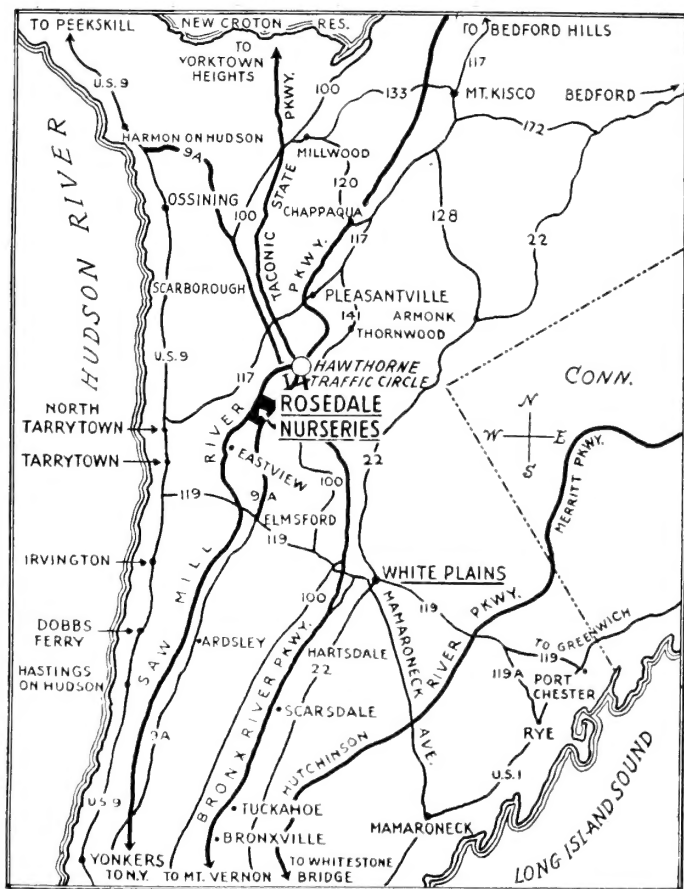

DANIEL J. CAREY, Commissioner
H. B. LITTLE, Director, Bureau of Plant Industry

**Always Easily
Accessible from
Putnam and
Dutchess Counties,
from Connecticut,
and Long Island**
(via the Whitestone Bridge)

Now equally easy to reach from New Jersey, Rockland and Orange Counties—Rosedale Nurseries are located just 6 miles from the Bridge Plaza at Tarrytown, with entrance right on the Parkway. Turn directly from the Parkway into the nurseries just 3½ miles north of Route 119

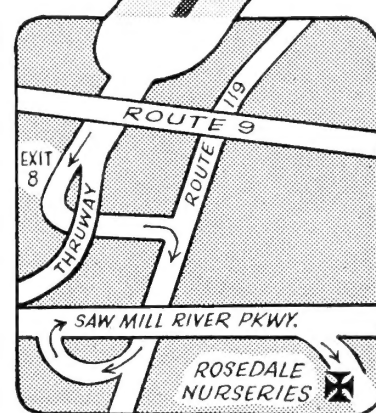

HOW TO GET TO ROSEDALE NURSERIES ON THE SAW MILL RIVER PARKWAY AT EASTVIEW, NEW YORK

WITH the opening of the Thru-Way Bridge from Nyack to Tarrytown, we extend a very special invitation to residents across the Hudson to visit our Nurseries.

Here you will be able to select from hundreds of varieties of plants—many of which are listed in this catalog. And if you would like help in selecting what is right for your particular needs or planting situation, our trained plantmen will be able and very please to advise you. There is no parking problem and the lath house, constantly filled with fresh dug plants in widest assortment, is at the tip of your bumper.

We suggest driving over soon so that you can plan early, plant early, and select while stock is most complete.

MAIL ORDERS

Orders by mail are given the same care and prompt attention as though you were selecting them in person. Shipments are made by parcel post, express or freight for all plants except those requiring a ball of earth and all shipping charges must be borne by customer except where otherwise noted.

No Mail Orders can be accepted for less than \$5.00 except on Bulbs. No C.O.D. shipments will be made unless order is accompanied by a 25% deposit.

Prices quoted herein are for a fine grade of plant and we reserve the right where necessary to change prices without notice and to charge for personally-selected plants according to their individual value. The illustrations and prices are typical of our large and varied stock, but specific plants may not be available at all times.

Please be sure to give correct shipping address and instructions.

Please address all mail orders and communications to our Post Office Address—EASTVIEW, NEW YORK.

FREE Delivery Area (Applies to Retail Orders Only)

All Westchester County.

NORTH—The following points in Putnam County:
Lake Mahopac—except some Mahopac R.F.D. points.
Carmel—except some R.F.D. points
Continental Village
Oregon
Oscawanna
Crofts Corners
Adams Corners
Mahopac Falls

EAST—The following points in Connecticut:
Ridgefield
Branchville
Georgetown
Weston
Wilton
New Canaan
Westport
Norwalk
Darien

Tilly Foster
Brewster
Peach Lake

Noroton
Stamford
Greenwich

SOUTH—Riverdale (Fieldston)

Bronx: Spuyten Duyvil

WEST—To Hudson River (East side of River only)

However, as an added service, we extend our deliveries beyond the local free delivery zone.

The charge for a delivery by our express truck—a ¾-ton pick-up truck—is \$15.00 for a distance up to 30 miles beyond the free delivery area.

For a large platform truck of 1½- to 3-tons—the charge is \$35.00 for a delivery up to 30 miles outside the free delivery area.

EVERGREEN TREES

(CONIFERS OR NEEDLE EVERGREENS) Handsome—Long Lasting

EVERGREENS present you with a most adaptable group of plants. The wide range of shapes, colors and textures fills a variety of situations — low foundations, or high screenings; background plantings, or accent points.

We take particular pride in the quality of our Evergreens — in their vigor, shape and expert balling and burlapping (B & B) to preserve their excellent root systems. ALL ROSEDALE EVERGREENS ARE B & B. These factors make for safe, easy, successful transplanting and quicker re-establishment in a new location. Frequent transplanting here in the nurseries develops strong root systems and is one of the "behind-the-scenes" operations which makes Rosedale Evergreens superior.

Wise and careful pruning will keep your plants and trees pretty much as you want them. An excellent example is the Hemlocks — one of the most popular of all trees for Evergreen hedges for maintaining fullness and controlled height — yet if allowed to grow unpruned, it will in time, reach a height of 70 to 100 feet.

Chamaecyparis • RETINOSPORA

These thrive best in moist soils and situations not too much exposed to wintry gales.

Chamaecyparis obtusa gracilis nana compacta (DWARF HINOKI CYPRESS). Very dwarf, dark green, irregular foliage. Extremely interesting for rockery. S

6 to 9 in. hgt.\$3.75 | 9 to 12 in. hgt.\$6.00
12 to 15 in. hgt.\$7.50

CRYPTOMERIA

Cryptomeria japonica Lobbi. A narrow, irregular column of dark green foliage changing to bronze in Winter. Useful for accent in formal planting.

2 to 3 ft. hgt.\$6.00 | 5 to 6 ft. hgt.\$20.00
6 to 7 ft. hgt.\$25.00

Juniperus • JUNIPERS

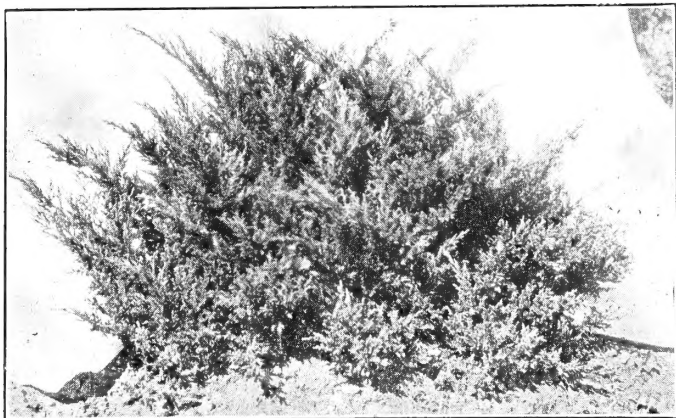

All the Junipers are valuable ornamental plants — the upright species as single specimens or in groups and the low forms well adapted for rockery, slopes or banks. Junipers thrive best in a sandy, loam soil in sunny, open situations.

Juniperus chinensis Keteleeri (KETELEER JUNIPER). This comparatively new variety is never affected by aphid or blight. It grows in pyramidal form and is of very pleasing light green color all year round. M

2 to 3 ft. hgt.\$6.00

J. c. Pfitzeriana (PFITZER'S SPREADING JUNIPER). A handsome, spreading form with gray-green, plume-like foliage. Extremely useful as a filler in foundation or border plantings. Hardy and indifferent to drought. M

18 to 24 in. spr.\$6.00 | 4 to 4½ ft. spr.\$20.00
2 to 2½ ft. spr.7.50 | 4½ to 5 ft. spr.22.50
2½ to 3 ft. spr.10.00 | 5 to 5½ ft. spr.25.00
5½ to 6 ft. spr.\$30.00

DWARF SPREADING JUNIPER (J. horizontalis plumosa)

PFITZER'S JUNIPER (Juniperus Pfitzeriana)

J. c. Pfitzeriana compacta glauca. A dwarf, compact type with blue-gray foliage. Excellent for banks, rock gardens or where low, spready plants are required. S

12 to 15 in. spr.\$4.50 | 15 to 18 in. spr.\$5.50
18 to 24 in. spr.\$7.50

J. c. Pfitzeriana Hetzi. A spreading type, more rapid-growing than the true Pfitzer, but stands shearing well. Decidedly blue-gray foliage. Good for both formal and informal effects. M

12 to 15 in. spr.\$2.95 | 18 to 24 in. spr.\$7.00
15 to 18 in. spr.5.00 | 2 to 2½ ft. spr.9.00

J. c. pyramidalis (GREEK JUNIPER). Slow-growing and of upright, columnar habit. The restful gray-green foliage makes it additionally useful as a color accent.

18 to 24 in. hgt.\$4.75 | 4½ to 5 ft. hgt.\$15.00

J. c. Sargentii. This low, trailing form with beautiful, deep blue-green foliage makes it one of the best Junipers for rock gardens. A great favorite. S

12 to 15 in. spr.\$5.25 | 18 to 24 in. spr.\$7.50
15 to 18 in. spr.6.25 | 2 to 2½ ft. spr.9.00

J. horizontalis plumosa. A dwarf, low-spreading form with plumes of foliage fanning out from the center. This Juniper offers the most interesting color changes of all Junipers—green in the Spring; gray-green in Summer, with myriads of heather tones in Winter. S

12 to 15 in. spr.\$2.65 | 18 to 24 in. spr.\$5.50
15 to 18 in. spr.4.25 | 2 to 2½ ft. spr.7.00
2½ to 3 ft. spr.\$9.00

J. virginiana Canaertii. An aristocrat of Cedars. Upright with "blackest" green foliage of all Junipers. Bears quantities of most ornamental blue berries. A Mecca for birds. M

2 to 3 ft. hgt.\$5.75

EVERGREENS (Conifers)—Continued

MUGHO PINE

Larix • LARCH

Larix leptolepis (JAPANESE LARCH). The Larch is an unusual tree in that it bears cones; as, for example, the Pines, but in the Fall, its soft, silvery-green needles turn bright gold and drop. In the Spring it is a glorious sight when even the smallest branches break forth with pompoms of soft yellow green needles. A tree of tremendous character and grace, the Japanese Larch is quick-growing and one of the hand-somest of lawn trees. F

8 to 10 ft. hgt.....\$20.00 | 10 to 12 ft. hgt.....\$25.00

Picea • SPRUCE

Spruces grow in almost any kind of moderately moist soil and are easily transplanted. They are great favorites as lawn specimens and accent points as well as for screen and border plantings.

Picea Abies (NORWAY SPRUCE). This rapid-growing, Christmas-tree type of Spruce attains great size. Useful as hedge material for windbreak or as single specimen. F

18 to 24 in. hgt.....\$4.50 | 3 to 4 ft. hgt.....\$7.50
2 to 3 ft. hgt.....6.00 | 4 to 5 ft. hgt.....10.00

P. glauca densata (BLACK HILLS SPRUCE). A neat, cone-shaped tree; dense and compact, with gray-green needles. Very hardy.

18 to 24 in. hgt.....\$4.75 | 2 to 3 ft. hgt.....\$6.00

P. Orientalis (ORIENTAL SPRUCE). A very graceful tree with dark, glossy foliage. Its very slow growth habit makes it ideal for the small garden or restricted location. Of great beauty and dignity. S

2½ to 3 ft. hgt.....\$9.00 | 3½ to 4 ft. hgt.....\$15.00
3 to 3½ ft. hgt.....12.00 | 4 to 4½ ft. hgt.....17.50

P. pungens glauca (KOSTER BLUE SPRUCE). Bluest of all Spruces with the typical, handsome, symmetrical form of growth; somewhat pendulous branches. For very best effect, use alone as accent or specimen. S

18 to 24 in. hgt.....\$16.00 | 2 to 3 ft. hgt.....\$25.00

Pinus • PINE

This beautiful group of Evergreens has always been a great favorite because of its comparatively long-clustered needles and graceful habit of growth. By nature, Pines with their stout root systems are able to obtain water in poor, sandy soils and dry situations where other species find it difficult to survive. In good soils, Pines really flourish and grow to a richness and fullness of beauty hard to equal.

Pinus Mugo Mughus (DWARF MUGHO PINE). This is a low, mounded form with shorter, stubbier needles than most Pines. It is slow-growing, attaining greater spread than height, which makes it particularly desirable for certain landscape situations. S

15 to 18 in. spr.....\$7.00 | 18 to 24 in spr.....\$9.00

P. Strobus (WHITE PINE). Beautiful in every stage of growth from seedlings to stately tree of 150 ft., if allowed to go unpruned. No other evergreen transplants more easily nor grows so rapidly and fully. F

2 to 3 ft. hgt.....\$3.75	6 to 7 ft. hgt.....\$20.00
3 to 4 ft. hgt.....5.75	7 to 8 ft. hgt.....27.50
4 to 5 ft. hgt.....9.50	8 to 9 ft. hgt.....35.00
5 to 6 ft. hgt.....15.00	9 to 10 ft. hgt.....42.50
10 to 12 ft. hgt.....\$50.00	

P. Strobus pyramidalis. A bushy, pyramidal form of White Pine (above).

5 to 6 ft. hgt.....\$15.00 | 6 to 7 ft. hgt.....\$20.00

Pinus Thunbergii (JAPANESE BLACK PINE). A handsome, wide-spreading tree with a broad, irregular head of brilliant green.

3 to 4 ft. hgt.....\$9.00 | 4 to 5 ft. hgt.....\$12.00

Pseudotsuga • DOUGLAS FIR

Pseudotsuga taxifolia (DOUGLAS FIR). This handsome tree with its gray-green foliage is very hardy and extremely ornamental at all stages of growth. Thrives in Canada and will endure both drought and cold. Some specimens are rich, deep green; others almost as blue as Blue Spruce. Douglas Fir does extremely well with us and we will be glad to have you make your selection.

18 to 24 in. hgt.....\$3.95	3 to 4 ft. hgt.....\$7.50
2 to 3 ft. hgt.....5.50	4 to 5 ft. hgt.....12.00
5 to 6 ft. hgt.....\$15.00	

Compact DOUGLAS FIR Growing at Rosedale

PLANTING GUIDE FOR B & B PLANTS

We suggest that you:

1. Dig hole wide and deep enough to easily admit the earth ball.
2. Set the top of ball 2 inches below the surface of surrounding soil. Tamp in firmly without removing burlap.
3. Cut burlap open at top. Complete filling in soil. Water twice weekly very thoroughly.
4. Use Peat Moss liberally in the hole and as a top mulch.

EVERGREENS (Conifers)—Continued

One of our fields of *Taxus Brownii* and *Hicksii* with *Hydrangea* in background

Taxus • YEW

No other group of Evergreens is more widely used today in landscape work than the Yews. Their rich, dark green colors, their beautiful textures, their hardiness, their freedom from ills, their slow, rugged development, their many varied shapes and types of growth make them deserving of this continued great popularity. They make the finest of all hedges; they stand heavy pruning very well. Yews thrive best in a moderately sandy loam but will endure adverse soil conditions and shade. For sheer beauty, enjoyment and increased property value, nothing surpasses the Yew. Our selection of Yews is very extensive and of highest quality.

We invite your inspection of our stock which we offer at new low prices.

Taxus baccata repandens (SPREADING ENGLISH YEW). This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique. Very desirable for low plantings. M
15 to 18 in. spr.\$7.00 | 18 to 24 in. spr.\$8.00

T. cuspidata (SPREADING JAPANESE YEW). This dense, spreading form with its deep green foliage is very hardy. Especially useful near the house. M
15 to 18 in. spr.\$4.95 | 2½ to 3 ft. spr.\$12.00
18 to 24 in. spr. 6.75 | 3 to 3½ ft. spr. 16.00
2 to 2½ ft. spr. 9.00 | 3½ to 4 ft. spr. 22.50

T. c. capitata (UPRIGHT JAPANESE YEW). Upright tree form of cuspidata—a very desirable variety for foundation plantings. Excellent for hedge purposes. M

18 to 24 in. hgt.\$6.50	3½ to 4 ft. hgt.\$18.00
2 to 2½ ft. hgt. 8.50	4 to 4½ ft. hgt. 22.50
2½ to 3 ft. hgt.12.00	4½ to 5 ft. hgt. 27.50
3 to 3½ ft. hgt.16.00	5 to 5½ ft. hgt. 35.00
5½ to 6 ft. hgt.\$40.00	

A few large specimens priced on selection

T. c. densiformis. This quite low-spreading Yew gives a particularly luxuriant appearance because of its large needles and very full center. Even with the fullness it creates almost a flat effect, giving a horizontal line very useful in modern landscaping. Rapid growth. Our favorite spreading variety. M

18 to 24 in. spr.\$6.75	2½ to 3 ft. spr.\$12.00
2 to 2½ ft. spr. 9.00	3 to 3½ ft. spr. 16.00
3½ to 4 ft. spr.\$22.50	

T. c. nana (DWARF JAPANESE YEW). Dwarf, compact, and low, spreading in habit. Very hardy. Because of its slow-growing nature it is especially useful in foundation plantings, for it will not outgrow its location.

12 to 15 in. spr.\$4.25	18 to 24 in. spr.\$8.00
15 to 18 in. spr. 5.75	2 to 2½ ft. spr.12.00

T. c. nigra (BLACK YEW). Looks much like *Taxus baccata* with its extremely dark green color. Symmetrical, very neat habit; broad spreading.

15 to 18 in. spr.\$5.75

T. c. Thayerae (THAYER TAXUS). Although not as low-growing as densiformis, this is a good low-spreading type of Yew. Good foliage with branches arching from center giving more of a graceful, fanning out effect. M

2½ to 3 ft. spr.\$12.00	3 to 3½ ft. spr.\$16.00
3½ to 4 ft. spr.\$22.50	

T. c. Wardii (WARD TAXUS). Slower growing than cuspidata, Wardii is dense in habit, with especially dark green foliage. S

15 to 18 in. spr.\$4.95 | 2½ to 3 ft. spr.\$12.00

T. media Brownii (BROWN'S YEW). This rounded, full-centered type of compact Yew is our very best type for hedges, where medium height and considerable fullness is desired. Our stock of this variety is especially fine. M

15 to 18 in. spr.\$4.95	2 to 2½ ft. spr.\$9.00
18 to 24 in. spr. 6.75	2½ to 3 ft. spr.12.00
3 to 3½ ft. spr.\$16.00	

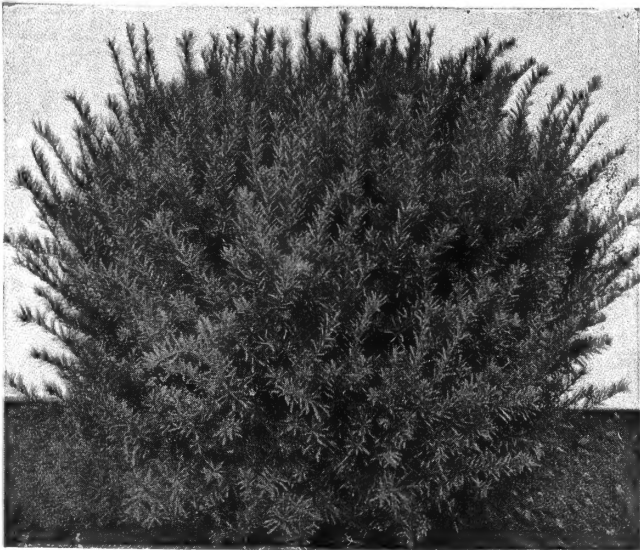

T. m. Halloran. Although a spreading type, this variety achieves a little more than most spreading Yews. Extremely hardy, making it especially good for severe locations. M

2 to 2½ ft. spr.\$9.00
2½ to 3 ft. spr.\$12.00 to 15.00
3 to 3½ ft. spr. 17.50 to 20.00

Spreading Yews developed to full density, ready-to-go this season

EVERGREENS (Conifers)—Continued

BROWN'S YEW (*Taxus Browni*)

***Taxus media Hatfieldii* (HATFIELD YEW).** Finest upright Yew, making the finest of hedges of all the Yews, we believe. Especially useful, for it holds its form almost without trimming. M

15 to 18 in. hgt.	\$4.95
18 to 24 in. hgt.	6.50
2 to 2½ ft. hgt.	9.00
2½ to 3 ft. hgt.	\$12.00 to 15.00
3 to 3½ ft. hgt.	17.50 to 20.00
3½ to 4 ft. hgt.	25.00 to 30.00

***T. m. Hicksii* (HICKS YEW).** Exceptionally dark green needles and red berries which it bears in profusion, makes this one of the most interesting Yews. Upright, columnar in habit. Also useful as hedge material. M

15 to 18 in. hgt.	\$4.50
18 to 24 in. hgt.	5.75
3 to 3½ ft. hgt.	\$12.50 to 15.00
3½ to 4 ft. hgt.	17.50 to 20.00
4 to 4½ ft. hgt.	22.50 to 25.00

Thuja • ARBORVITAE

These ornamental Evergreen trees are favorites for formal gardens because of their regular symmetrical habit. Especially adapted for slender hedges and windbreaks where space is a factor.

***Thuja occidentalis nigra* (DARK AMERICAN ARBORVITAE).** An upright variety of deep, rich green. Especially useful in hedges and screenings. M

2 to 2½ ft.	\$4.50
2½ to 3 ft.	6.00
3 to 4 ft. hgt.	7.50
4 to 5 ft. hgt.	10.00
5 to 6 ft. hgt.	12.00
6 to 7 ft. hgt.	15.00

***T. o. Woodwardii* (WOODWARD GLOBE ARBORVITAE).** Dense, globe-shaped variety which maintains its shape without shearing. Foliage is a pleasing sea-green in Summer; in Winter, bronze. Perfectly hardy. Grows about 3 ft. high.

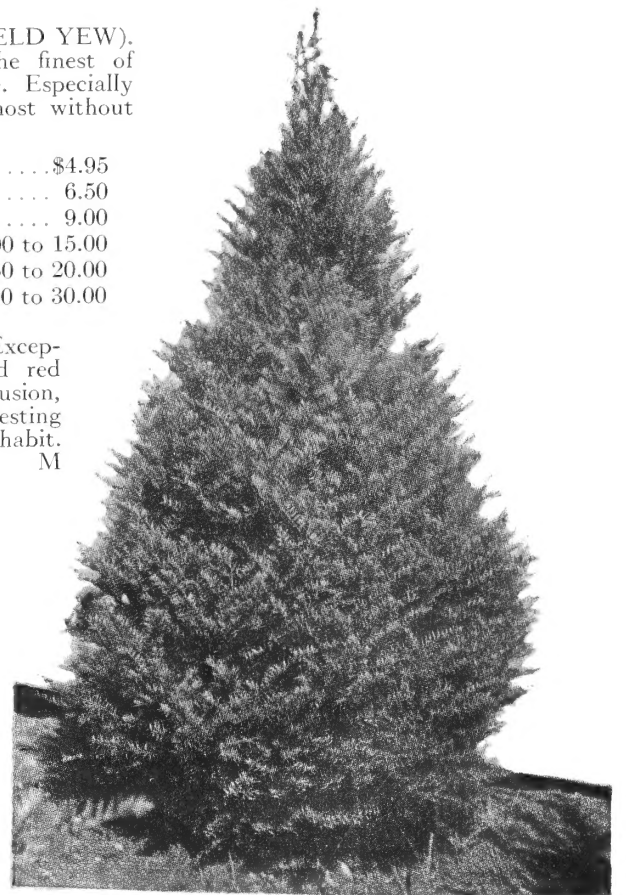

15 to 18 in. spr.	\$3.50
-------------------	--------

***T. orientalis Sieboldii* (GOLDEN BIOTA).** A dwarf, rounded plant with yellow to bronze foliage. Always retains its neat, compact form without training. S

15 to 18 in. hgt.	\$3.75
-------------------	--------

SILVER PFITZER JUNIPER (*Juniperus Hetzi*)

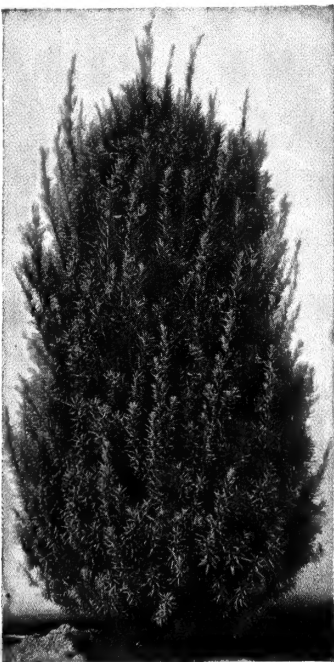

UPRIGHT JAPANESE YEW (*Taxus cuspidata capitata*)

***Tsuga caroliniana* (SOUTHERN HEMLOCK).** A native of the mountains of the Southern States yet perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock. M

18 to 24 in. hgt.	\$6.50
3 to 4 ft. hgt., heavy	12.50

***T. Sieboldii*.** A very desirable dwarf Hemlock of pyramidal habit. Not commonly seen in this area yet entirely hardy. Shining green needles make this rival the Yew for fine home planting.

5 to 6 ft. hgt.	\$30.00
6 to 7 ft. hgt.	\$35.00

HICKS YEW
(*Taxus m. Hicksii*)

Tsuga • HEMLOCK

Hemlocks can be used in many different ways and in each case they are eminently suitable and beautiful. As lawn specimens they attain great size and grandeur; by shearing, they may be used in foundation plantings and kept from overgrowing for years and years. For border or screen, they form a most naturalistic background. Hemlocks are practically immune to insects and disease.

***Tsuga canadensis* (CANADIAN HEMLOCK).** A handsome, ornamental tree, growing 70 to 100 ft. high, but with shearing may be kept within any desired height. Wonderful for thick hedge. Its graceful, feathery effects are admired by everyone. F

18 to 24 in. hgt.	\$5.50
2 to 3 ft. hgt.	6.95
3 to 4 ft. hgt.	9.50
4 to 5 ft. hgt.	14.00
5 to 5½ ft. hgt.	16.00
5½ to 6 ft. hgt.	20.00
6 to 7 ft. hgt.	25.00
7 to 8 ft. hgt.	35.00

***T. c. pendula* (SARGENT'S WEEPING HEMLOCK).** Makes a tremendous mound of wavy outline many times broader than high; always well clothed and neat. Like all good things it develops slowly but becomes a real possession in your "personal" effects. Magnificent. S

18 to 24 in. spr.	\$25.00
2 to 2½ ft. spr.	35.00

HEMLOCK

EVERGREEN SHRUBS

(BROADLEAVED EVERGREENS)

THIS GROUP of "double-duty" plants — year-round green with beautiful, colorful flowers in season — offers the wise buyer more satisfaction during all seasons of the year than any other single group of plants.

Both the home gardener and the landscape architect are using these Evergreen Shrubs in increasing numbers each year to provide colorful as well as evergreen effects for greater enjoyment of the home grounds. The variety of textures afforded by this group offers almost unlimited possibilities in creating just the picture you desire.

We have an unusually fine selection of these Flowering Broadleaved Evergreens at Rosedale and we invite you to come to the nurseries to see our stock.

ALL ROSEDALE BROADLEAVED EVERGREENS ARE B & B

(For Planting Instructions, Please See Page 3)

Abelia grandiflora • GLOSSY ABELIA

A splendid half-evergreen shrub, bearing dainty, bell-shaped pink flowers, July until frost. Glossy foliage will persist all Winter in a protected spot. M

4 in. pots.....\$1.50 | 2 to 3 ft. hgt.....\$4.50
3 to 4 ft. hgt.....\$6.00

AZALEAS

Azalea amoena (Evergreen). Small, box-like leaves on a neat, compact plant of rounded form. Covered with rosy-purple flowers in Spring. Leaves turn warm bronze in Winter. Very hardy. S

12 to 15 in. spr.....\$4.00 | 15 to 18 in. spr.....\$5.00

Larger sizes on selection

A. Delaware Valley White. An Improved Azalea Snow, hardier than ledifolia alba. Low, bushy, compact; brighter green foliage.

12 to 15 in.\$4.25 | 15 to 18 in.\$6.25

A. hinodegiri (Evergreen). Probably the best of the Evergreen Azaleas for color, foliage, and form. A low, compact plant with handsome, waxy foliage turning bronze in Winter. The flowers are clear, fine red, borne in great profusion in May. May need some Winter protection in exposed locations or north of the nurseries. Our stock is thick and compact, and loaded with flower buds. S

6 to 8 in. spr.....\$1.65 | 12 to 15 in. spr.....\$3.95

8 to 10 in. spr.....2.00 | 15 to 18 in. spr.....5.25

10 to 12 in. spr.....2.50 | 18 to 24 in. spr.....6.95

A. indica alba (Half Evergreen). A fine combination with Hinodegiri as the large white flowers appear at the same time. Grows slightly taller than most and is of purest white. S

8 to 10 in. spr.....\$2.00 | 12 to 15 in. spr.....\$3.95

10 to 12 in. spr.....2.50 | 15 to 18 in. spr.....5.25

18 to 24 in. spr.....\$6.95

A. kaempferi (TORCH AZALEA). Not completely evergreen but usually retains much of its foliage during Winter. Will grow to considerable height. The great profusion of bloom ranges in color from fire-red to salmon-pink in varying shades in this group of hybrids.

12 to 15 in.\$3.95 | 18 to 24 in.\$6.95

15 to 18 in.5.25 | 2 to 3 ft. hgt.....9.00

3 to 4 ft. hgt.....\$12.00

Named Kaempferi Varieties:

Atlanta. Soft purple flowers; good grower.

2 to 3 ft.\$9.00

Carmen. Delicate rose pink.

2 to 3 ft.9.00

Fedora. Fine deep pink.

2 to 3 ft.9.00

A. Sweet Briar. An outstanding hardy variety of evergreen Azalea. Rose-pink blooms in great profusion. S

8 to 10 in. spr.....\$2.25 | 12 to 15 in. spr.....\$4.25

10 to 12 in. spr.....3.25 | 15 to 18 in. spr.....5.25

A. Salmon Beauty. A fine salmon-pink. One of the best of the Kurumes.

10 to 12 in.\$3.25

A. J. T. Lovett. This evergreen Azalea bears large, carmine blooms in late May throughout June. Especially useful for its late-blooming quality.

12 to 15 in. spr.....\$4.25

A. poukhanense (Half Evergreen). A broad plant of finest form with delicate lavender buds opening to extremely large, delightful pink blooms; sweetly scented. Growth is modest and it is positively hardy. We cannot recommend Azalea poukhanense too highly. M

8 to 10 in. spr.....\$2.00 | 15 to 18 in. spr.....\$4.25

12 to 15 in. spr.....3.75 | 18 to 24 in. spr.....5.25

2 to 2½ ft. spr.....\$7.50

AZALEAS—Continued

A. Wilhelmina Vuyk. White. Much more hardy and generally reliable than ledifolia alba.

12 to 15 in.\$4.25 | 18 to 24 in.\$6.95

15 to 18 in.5.25 | 2 to 2½ ft.9.00

A. Rose Bud. Produces blooms in profusion, like miniature pink Roses. Outstanding variety.

6 to 8 in.\$2.25 | 10 to 12 in.\$3.25

A. Rose Greely. One of the hardier whites growing medium tall and blooming in midseason.

6 to 8 in.\$2.25

DECIDUOUS AZALEAS

For your convenience, we list here other varieties of Azaleas which, although not evergreen, are just as beautiful and useful. They are slightly more hardy, generally speaking, than evergreen types and combine splendidly with Laurels and Rhododendrons, relieving the heavy, solid foliage of the Rhododendrons with the lighter, more delicate, deciduous foliage.

Azalea arborescens. This is one of the few really hardy white forms. Blooms are quite large and occasionally tinged pink. Blooms usually in mid-June; delightful fragrance. A most desirable variety for mass plantings of native material. M

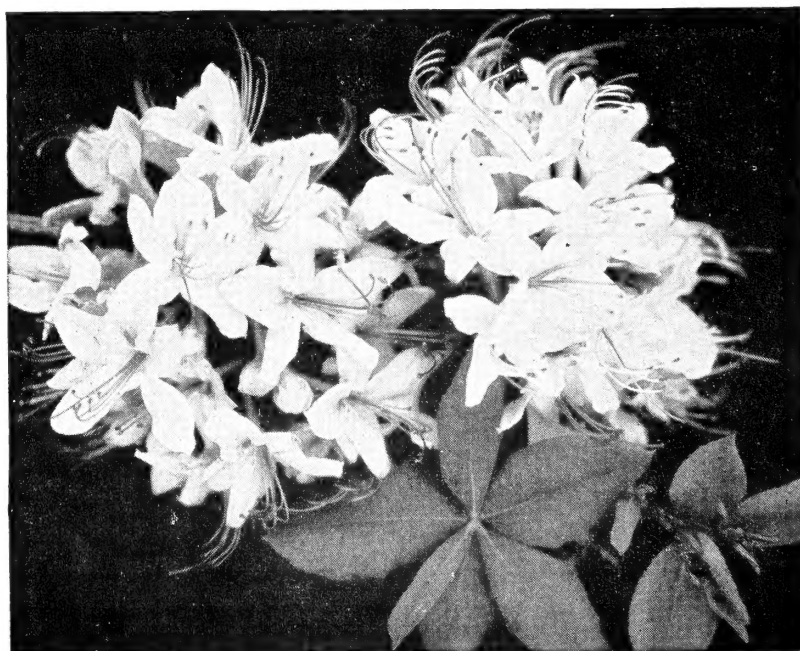

15 to 18 in. hgt.....\$3.75 | 2 to 2½ ft. hgt.....\$6.00

18 to 24 in. hgt.....4.75 | 2½ to 3 ft. hgt.....7.50

A. calendulacea (FLAME AZALEA). A brilliant orange and yellow flowering native shrub. Tall but slow-growing. Free flowering. F

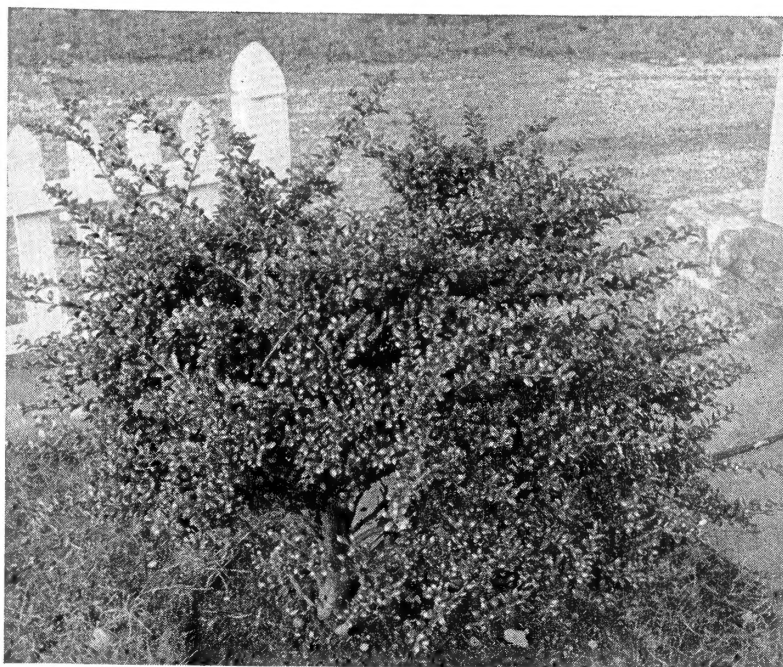

18 to 24 in. hgt.....\$4.75 | 2½ to 3 ft. hgt.....\$7.50

2 to 2½ ft. hgt.....6.00 | 3 to 4 ft. hgt.....10.00

AZALEA CALENDULACEA

EVERGREEN SHRUBS—Continued

BOXLEAF HOLLY (*Ilex convexa*) (See page 8)

AZALEAS—Continued

- A. mollis Hybrids** (CHINESE AZALEAS). A mass of large, bell-shaped flowers delicately shaded in orange and red tones on a low, compact shrub. The flowers which appear before the leaves develop, are probably the largest of all the Azaleas and the profusion of blooms is unequalled. Likes plenty of sun and develops slowly. M
12 to 15 in. hgt.\$2.65 | 2 to 3 ft. hgt.\$5.95
- A. mucronulata**. Most worthwhile variety for planting in front of Forsythias, as it blooms at same time and color combination is most striking. Lavender-pink. F
18 to 24 in. hgt.\$6.75 | 2 to 2½ ft. hgt.\$7.50
2½ to 3 ft. hgt.\$9.00
- A. nudiflora** (PINXTERBLOOM or WILD HONEYSUCKLE). This lovely, native Azalea is known to all who have tramped woodlands in May. Fragrant pink. F
15 to 18 in. hgt.\$3.75 | 18 to 24 in. hgt.\$4.75
2 to 3 ft. hgt.\$6.00
- A. n. rosea** (DOWNY PINXTER AZALEA). Sometimes confused with *A. nudiflora*, but is hardier and deeper in coloring. Very fragrant, rosy-pink flowers. Prefers half-shade and grows in either acid or lime soil. F
3 to 3½ ft. hgt.\$7.50 | 4 to 5 ft. hgt.\$15.00
3½ to 4 ft. hgt.10.00 | 5 to 6 ft. hgt.\$17.50 to 20.00
- A. Schlippenbachii** (ROYAL AZALEA). Vigorous plant with large, showy flowers of pale rose-pink, lightly spotted with brown. Flowers are often 3 in. across. Sweetly scented.
15 to 18 in.\$6.00 | 18 to 24 in.\$7.50
- A. vaseyi** (PINKSHELL AZALEA). Shell-pink flowers in May cover the entire plant and make a striking picture. Very lovely. F
12 to 15 in. hgt.\$3.25 | 18 to 24 in. hgt.\$5.25
15 to 18 in. hgt.4.25 | 2 to 2½ ft. hgt.6.50
2½ to 3 ft. hgt.\$8.00
- A. viscosa** (SWAMP AZALEA). A slender, upright Azalea with heavily scented pink or white flowers in July well after the leaves appear. Thrives in moist places from Maine to South Carolina, and attains 4 to 8 ft. in height. F
15 to 18 in. hgt.\$3.75 | 3 to 3½ ft. hgt.\$7.50
18 to 24 in. hgt.4.75 | 3½ to 4 ft. hgt.9.00
2 to 3 ft. hgt.6.00 | 4 to 5 ft. hgt.12.00
5 to 6 ft. hgt.\$15.00

Berberis • BARBERRY

- Berberis Julianae** (WINTERGREEN BARBERRY). *Evergreen.* Thorny, dense, dark green foliage. Inconspicuous yellow flowers and purple fruit. Good ornamental for border, foundation, or hedge. M
12 to 15 in. hgt.\$4.00 | 2 to 2½ ft. hgt.\$8.00
15 to 18 in. hgt.5.00 | 2½ to 3 ft. hgt.10.00
18 to 24 in. hgt.6.50 | 3 to 3½ ft. hgt.12.00

BUXUS

Buxus suffruticosa (OLD ENGLISH BOXWOOD). Handsome, very slow growing variety of compact habit for special use as edging. The type frequently found on old estates.

4 to 6 in., BR.70c., \$60.00 per 100
6 to 8 in., B&B.\$1.50

COTONEASTERS

Cotoneasters are of high value for landscape plantings. The interesting branching habits, both the low, sprawly types and those with arching branches, are decorative all year. They vary greatly in habit yet each contributes in attractiveness and presents brilliantly colored fruit. Cotoneasters do not transplant as readily as some shrubs and must be carefully handled during the transplanting operation. However, in an open situation, they generally prove to be very hardy throughout northern United States. Excellent for flower arrangements. All our Cotoneasters are container-grown.

Cotoneaster apiculata. Spreading habit, similar to *horizontalis*, but a little more mounded and with larger berries. M

12 to 15 in.\$2.75

C. dielsiana. Fairly upright, arching branches, shiny dark green leaves and red fruit. A valuable addition to any shrub group. S

15 to 18 in.\$2.75 | 3 to 4 ft.\$4.95

C. divaricata. This broad shrub with spray-like branches bears tiny, glossy leaves interspersed with scarlet berries in Fall. Vigorous grower. F
15 to 18 in.\$2.75 | 2 to 3 ft., B&B.\$4.95

C. Francheti (FRANCHET COTONEASTER). Upright, dense shrub with wide spreading branches, small pink flowers in June with a tremendous crop of orange berries in September. Foliage gray-green. F
15 to 18 in. hgt.\$4.25 | 18 to 24 in. hgt.\$5.75
2 to 3 ft. hgt.\$7.50

C. Henryana (HENRY COTONEASTER). A graceful shrub of drooping habit with reddish foliage. Bears an abundance of red-berried clusters in Fall. Fine for a slope. F
15 to 18 in. hgt.\$4.25 | 18 to 24 in. hgt.\$5.75
2 to 3 ft. hgt.\$7.50

C. horizontalis (ROCK COTONEASTER). A creeping form, with very low, almost horizontal branches bearing a profusion of bright red berries. Especially effective fruiting variety for the rockery. M
12 to 15 in. spr.\$3.50 | 15 to 18 in. spr.\$4.75

C. repens. A dwarf, prostrate form with small evergreen leaves and larger red berries. Flatter and lower-growing than *horizontalis*. S
12 to 15 in.\$2.75 | 15 to 18 in.\$3.50

DAPHNE

Daphne Cneorum (ROSE DAPHNE). Rose Daphne is a dainty little bush 1 to 2 ft. high with gray green foliage, each shoot tipped with clusters of clear rose-pink flowers in April and May and again in Autumn. The fragrance is delightful and so strong a few plants will scent a wide area. Likes plenty of lime in the soil. Must have full sun and loose soil which never becomes caked.

6 to 9 in. spr.\$1.95 | 9 to 12 in. spr.\$2.75
12 to 15 in. spr.\$3.75

D. Somerset (*Plant Patent No. 315*). A fairly recent development and a very worthwhile addition to the Daphne family is *D. Somerset*. The foliage is rich, dark green, much like the ever-popular Boxwood. Flowers are blush-pink, star-shaped in clusters 6 to 8 in. long. Delightfully fragrant; evergreen in areas where temperatures are moderate. Medium height.

12 to 15 in.\$3.50 | 18 to 24 in.\$6.00
2 to 2½ ft.\$7.50

EUONYMUS

Euonymus Fortunei, *Emerald Cushion* (*Plant Patent No. 1112*). This NEW, slow-growing, very dwarf plant is compact and dense in form. Its glossy green leaves make an attractive, full-mounded appearance. Hardy.

12 to 15 in. spr.\$3.75 | 15 to 18 in. spr.\$4.65

E. Fortunei, *Emerald Pride* (*Plant Patent No. 1073*). This NEW, upright form of *Euonymus* is dwarf, compact and very neat. Its uniform habit of growth—almost as broad as tall—is hardy and withstands drought well. Glossy, deep green foliage; fibrous root system.

12 to 15 in.\$3.75 | 15 to 18 in.\$4.65

EVERGREEN SHRUBS—Continued

Ilex • THE HOLLIES

Our imaginations are stirred by the familiar sight of a full-grown Holly tree aglow with red berries not only because of its association with Christmas spirit and cheer but by the crisp, dominant, year-round personality. However, only one of this group looks anything like the Christmas Holly. Hollies differ greatly in habit and use but all are among the most desirable of evergreen shrubs.

Ilex crenata (JAPANESE HOLLY). A rapid-growing, dense evergreen bush with deep green, boxwood-like foliage. A beautiful and permanent plant of real character. F

18 to 24 in. hgt.	\$5.50
2 to 2½ ft. hgt.	\$7.50 to 9.00
2½ to 3 ft. hgt.	12.00
3 to 3½ ft. hgt.	15.00
3½ to 4 ft. hgt.	18.00
4 to 4½ ft. hgt.	22.50
4½ to 5 ft. hgt.	27.50
5 to 5½ ft. hgt.	35.00

I. c. convexa (BOXLEAF HOLLY). Resembles dwarf Boxwood in habit and foliage. Usually grows broader than high with very glossy foliage. We recommend its wide use as it has a live, healthy look through the coldest weather. M

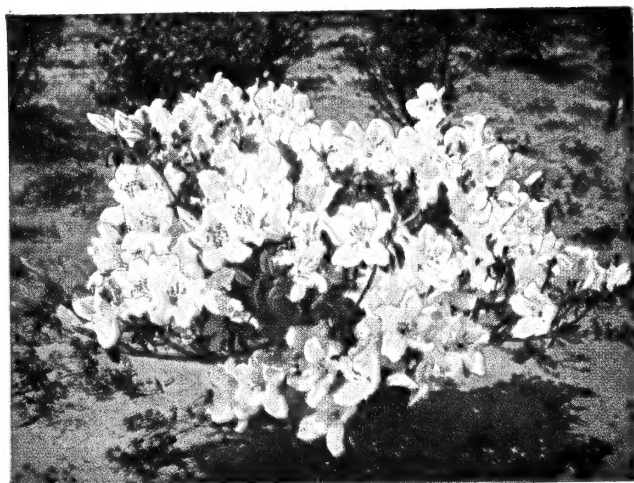

12 to 15 in. spr.	\$4.50	2 to 2½ ft. spr.	\$9.00
15 to 18 in. spr.	6.00	2½ to 3 ft. spr.	12.00
18 to 24 in. spr.	7.50	3 to 3½ ft. spr.	15.00

I. c. Green Island (Plant Pat. No. 817). Low, mounded form; an improved boxleaf Holly with broader foliage of deepest glossy green; hardy, dependable. Ideal for modern plantings. M

12 to 15 in. spr.	\$4.75	18 to 24 in. spr.	\$8.50
15 to 18 in. spr.	6.25	2 to 2½ ft. spr.	12.00

COTONEASTER FRANCHETI

Ilex crenata Stokes (STOKES HOLLY) (Plant Patent No. 887.)

A new dwarf, very slow-growing Holly of exceptional merit; excellent for edgings, rock gardens, foundations as it does not outgrow its location. Unusually hardy. This wonderful plant was acclaimed by the *Herald Tribune* Plant Jury as outstanding for 1952. S

6 to 8 in. spr.	\$1.75	10 to 12 in. spr.	\$1.00
8 to 10 in. spr.	2.75	12 to 15 in. spr.	5.25

Ilex glabra (INKBERRY). Bushy, upright growing, very hardy shrub with dark, oval foliage, small flowers and an abundance of glossy black fruit in Fall. Useful for shady and moist locations. M

18 to 24 in.	\$5.00	2 to 3 ft.	\$7.50 to \$9.00
-------------------	--------	-----------------	------------------

I. c. rotundifolia. Compact, evergreen shrub with shiny green foliage and black berries; an outstanding variety; real hardy in Westchester. M

18 to 24 in.	\$6.00	3 to 3½ ft.	\$15.00
2 to 2½ ft.	8.50	3½ to 4 ft.	20.00

I. opaca (AMERICAN HOLLY). This well-known Christmas Holly with red berries grows to a large tree, but may be sheared to a dense bush. Both male and female plants should be planted. We believe we have one of the finest collections of American Holly, grown from selected strains, and all plants have been trained and transplanted frequently.

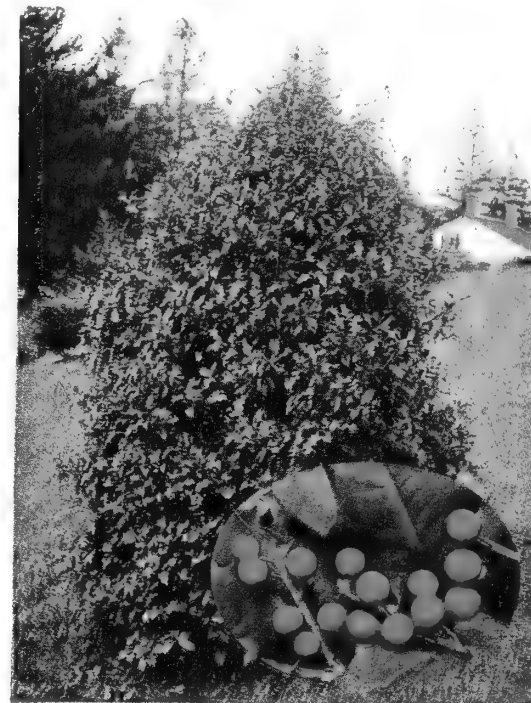

12 to 15 in.	\$3.00 each, 3 for \$8.75	15 to 24 in.	\$6.00 to \$7.50
2 to 3 ft. hgt.			\$9.00

PIERIS JAPONICA

PYRACANTHA

AMERICAN HOLLY

Kalmia latifolia • MOUNTAIN LAUREL

The pink blooms of Mountain Laurel in June can hardly be matched by any other plant for profusion, delicate form or lasting quality. Most effective in group planting and must have acid soil. M

18 to 24 in. hgt.	\$3.50	3 to 3½ ft. hgt.	\$9.00
2 to 2½ ft. hgt.	4.75	3½ to 4 ft. hgt.	\$12.00 to \$15.00
2½ to 3 ft. hgt.	6.00		Larger sizes available—Priced on selection

Leucothoe Catesbaei • DROOPING LEUCOTHOE

Beautiful, dwarf shrub for either shade or sun. White, bell-shaped flowers cover the drooping stems in early Spring. The Fall and Winter color of foliage is bronze to red and most decorative. Branches cut for floral arrangements last for weeks and cutting improves the plant. M

12 to 15 in. spr.	\$3.75	15 to 18 in. spr.	\$4.50
18 to 24 in. spr.	\$6.00		

Pieris • ANDROMEDA

Pieris japonica (JAPANESE ANDROMEDA). Foliage and general form similar to floribunda. This handsome plant with its glossy leaves in various shades, however, bears its lovely white flowers in sprays of Lily-of-the-Valley-like clusters in very early Spring. M

18 to 24 in. hgt.	\$6.00	2 to 2½ ft. hgt.	\$7.50
2½ to 3 ft. hgt.	\$9.00 to \$12.00		

RHODODENDRON HYBRIDS

EVERGREENS—Continued

***Pyrarantha coccinea Lalandii* • FIRETHORN**

This very popular, semi-evergreen shrub has strong, slender branches from the ground with stubby side growths bearing innumerable orange-red berries. Amazingly beautiful in Fall. Very good effects when espaliered. All container grown. F

12 to 18 in.	\$2.50
18 to 24 in.	4.50
2 to 3 ft. hgt.	6.00
3 to 4 ft.	7.50

RHODODENDRONS

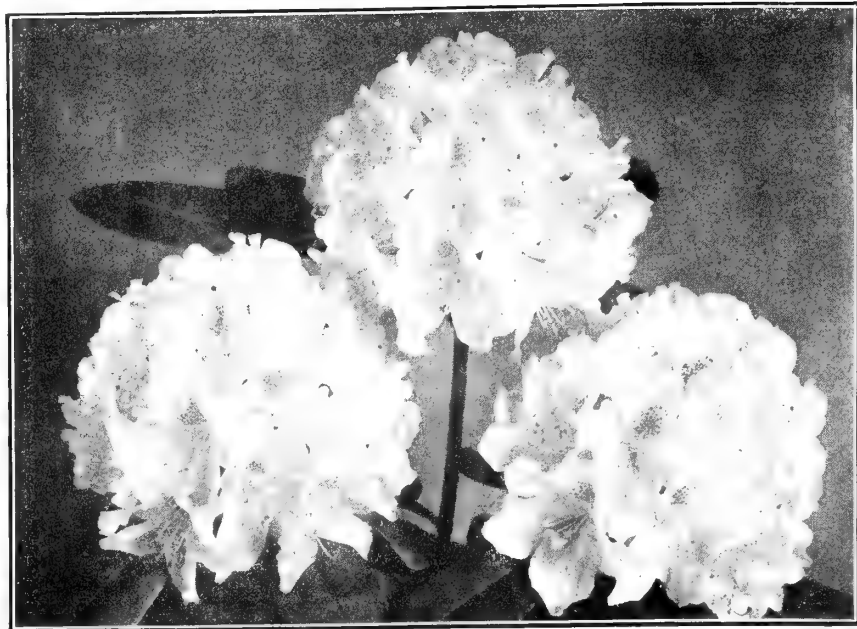

Rhododendrons require little care after they become established except possibly, some judicious pruning to keep them full and bushy, and yet they yield the loveliest flowers in early June or late May. They grow best in a light, somewhat acid soil, which is moist but well-drained. (They dislike "wet feet.") They do well in shade or partial sun and sometimes, unless protected in Winter, they may suffer some burning in windy areas.

Rhododendron carolinianum (CAROLINA RHODODENDRON). A very early blooming variety, small and compact. Has handsome, dark green leaves and in May and June produces a profusion of soft, rose-pink bloom. A great favorite. S

18 to 24 in. hgt.	\$6.50
2 to 2½ ft. hgt.	9.50
2½ to 3 ft. hgt.	12.00

R. maximum (ROSEBAY RHODODENDRON). Our native Rhododendron, with white and light pink flowers. Nursery-grown plants. M

18 to 24 in. hgt.	\$4.50
2 to 3 ft. hgt.	5.25
3 to 3½ ft. hgt.	7.50
3½ to 4 ft. hgt.	9.00
4 to 5 ft. hgt.	\$12.00 to 15.00

RHODODENDRON MAXIMUM

RHODODENDRON HYBRIDS

These well-budded plants are offered in an unusually select list of varieties, and it is through these named varieties or hybrids (that is, grafted stock) that the gorgeous array of colors in Rhododendrons in June are obtained. Hybrids are noted, too, for their superior foliage.

Our Hybrid Rhododendrons are the healthiest we have ever had and we offer only those varieties which are hardy in this area. M

Sizes available are indicated by the letters as shown:

12 to 15 in.—A	\$6.75
15 to 18 in.—B	10.00
18 to 24 in.—C	12.50
2 to 2½ ft.—D	16.00
2½ to 3 ft.—E	\$20.00 to 27.50
3 to 3½ ft.—F	30.00 to 37.50
3½ to 4 ft.—G	40.00 to 50.00

America. Unusually large clear red flowers; very hardy. Midseason. A B C

Amphion. Clear, glistening pink with white centers. Enormous trusses and excellent foliage. One of the best. A B C

Atrosanguineum. A development of catawbiense, it has excellent foliage, compact form and is most vigorous. Deep blood-red. A B C

Caractacus. A fine, rich purple-crimson flower of well-known variety. Blooms late. A B C

Catawbiense Album. Large blush blooms changing to purest white. A hardy, compact variety. Late. A B C

Catawbiense Boursault. Brilliant purple; exceptionally sturdy and well-shaped. A B

Catawbiense Grandiflorum. Violet-rose, a real Rhododendron color. Exceptionally vigorous. A fine midseason variety. A B C D E F G

Charles Dickens. Gorgeous shade of dark rich crimson. Handsome and very hardy. A B C

Cunningham's White. A real old hybrid; dwarf, compact plants. Occasionally flowers Spring and Fall. (Graded on spread.) C D E

Dr. H. C. Dresselhuys. Glittering crimson blooms of unusual size. One of the best reds and one of the best hybrids. Midseason. A B C D

Edward S. Rand. Bright red flowers with a dark eye. Good foliage, low-growing. A favorite. C

English Roseum. Deep pink. An improved Roseum elegans. A B C

Everestianum. Delicate lilac-pink with crisp edges. Magnificent, compact habit. Very free flowering. B C

H. W. Sargent. Fine, bright red, with enormous trusses. Good as specimen. B

Ignatius Sargent. Light, clear red, exceptionally large trusses. Vigorous and rapid-growing, long a favorite. Late. B

Mrs. C. S. Sargent. Deep glowing pink; good foliage; very hardy. A B C

Roseum Elegans. A brilliant rose-pink. Handsome foliage. Vigorous and hardy—an altogether outstanding Hybrid. Midseason. A B C D E

CAROLINA RHODODENDRON and Other Evergreen Shrubs Give Lively Winter Effect (Photographed in January) and Spectacular Color in Summer

FLOWERING TREES

Rosedale
NURSERIES, INC.
EASTVIEW, N. Y.

Enchanting Beauty • Constant Delight

EVERYONE thrills to the glorious sight of a Flowering Dogwood in the Spring and the transformation of Crabapples and Flowering Cherry Trees into prodigious masses of blooms is breathtaking.

How wonderful to be able to add this loveliness to your own landscape pictures by merely planting almost any of these varieties listed here. Plant singly as a point of interest or in groups to give a glorious massed effect.

You will find that Flowering Trees are a solid investment, enhancing not only the value of your property but your enjoyment of your home. Aside from the Spring dividend of color, you receive shade in the Summer with berries and gorgeous foliage changes in the Fall.

All the varieties listed below are hardy and chosen because of the complete satisfaction they have given — no matter whether planted as lawn specimens, in the border, or among evergreens. Quality of stock is of utmost importance at Rosedale.

Although authorities differ we have tried to give you the consensus of opinion in coding our plant material as to speed of growth: S—Slow-growing; M—Moderate-growing; F—Fast-growing. Opinions and recommendations are based on growing habits observed in our nurseries. Appropriate allowances must be made for variations in climate, temperature, exposure and elevation even within Westchester County.

**ALL FLOWERING TREES ARE BALLED AND BURLAPPED (B & B) EXCEPT
AS MARKED BARE ROOT (B R)**

*For Planting Instructions, Please See Page 3 for B & B Material,
and Page 40 for B R Material*

Cercis canadensis • RED BUD or JUDAS TREE

A large, shrub-like tree bearing myriads of brilliant purple-pink flowers in April before the leaves appear. Picturesque in form and a colorful delight in the early Spring landscape. Suitable in the shrub border or planted as a specimen. We offer the following fine stock for early transplanting. M

5 to 6 ft. hgt., BR..... \$5.00

PAUL'S SCARLET HAWTHORN (*Crataegus oxyacantha Paulii*)
(See page 12)

ROSEDALE DOGWOODS are widely spaced for full top development

Cornus • DOGWOOD

Cornus florida (WHITE DOGWOOD). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The deep green foliage turns a brilliant red in Autumn, with red berries which are extremely attractive to birds. M

3 to 4 ft. hgt.....	\$5.50	5 to 6 ft. hgt.....	\$15.00
4 to 5 ft. hgt.....	9.00	6 to 7 ft. hgt.....	20.00
7 to 8 ft. hgt.....			\$30.00

Heavier specimens priced on selection

C. florida rubra (PINK DOGWOOD). Similar to the native White Dogwood in habit and form but with masses of pink flowers. Pink Dogwoods continue to be extremely scarce and therefore all sizes may not be available. M

18 to 24 in. hgt.....	\$5.50	3 to 4 ft. hgt.....	\$10.00
2 to 3 ft. hgt.....	6.50	4 to 5 ft. hgt.....	16.00
7 to 8 ft. hgt.....			\$40.00 to \$50.00

C. Kousa (KOUSA DOGWOOD). This variety is characterized by its handsome symmetrical form and very dense branches of deep green foliage. Against this the myriads of white flowers in July stand out strikingly, followed by conspicuous crimson fruit, resembling Strawberries. Very attractive to birds. M

3 to 4 ft. hgt.....	\$7.50	5 to 6 ft. hgt.....	\$15.00
4 to 5 ft. hgt.....	10.00	6 to 7 ft. hgt.....	20.00
7 to 8 ft. hgt.....			\$25.00 to \$30.00

FLOWERING TREES—Continued

PINK DOGWOOD.

ESPALIERED TAXUS AGAINST WALL

Copyright House Beautiful, June 1955

Laburnum Watereri • GOLDEN CHAIN

Large, pendant, golden flowers hang from the twigs like Wisteria. Appears to be more hardy than Laburnum vulgare. M

4 to 5 ft. hgt., container-grown.....\$9.00

STAR MAGNOLIA

BERRIES OF HAWTHORN

Crataegus • HAWTHORN

Crataegus Crus-galli (COCKSPUR THORN). This thorny, more spreading type of Hawthorn serves well as accent or hedge. The single white flowers become showy red fruit, while the dark, shiny green leaves persist until late Autumn, when they turn brilliant orange. M

8 to 10 ft. hgt.....\$50.00
10 to 12 ft. hgt.....\$65.00 to 85.00
12 to 14 ft. hgt..... 95.00 to 110.00

C. Phaenopyrum (WASHINGTON THORN). This upright, vase-shaped tree is of medium size, with clusters of white blooms. Its brilliant red fruit, showiest of all the Hawthorns, makes this an outstanding favorite for accent or specimen. M

4 to 5 ft. hgt., BR.....\$ 5.00
4 to 5 ft. hgt., B&B.....\$7.50 to 10.00

8 to 10 ft. hgt.....

(Double White only)\$25.00 to 35.00

C. oxyacantha Paulii (PAUL'S SCARLET). This picturesque tree, bearing brilliant, double scarlet flowers in late Spring is a valuable addition to the landscape picture. Foliage is typically shiny green but of unusual lobed form. A great favorite. M

4 to 5 ft. hgt., BR.....\$5.00
5 to 6 ft. hgt.....12.00
6 to 7 ft. hgt.....15.00

Franklinia alatamaha • FRANKLIN TREE or GORDONIA

A small, lovely tree at any time, with its graceful arching branches of shiny, rich green this bursts into extraordinary beauty in the Fall. About September 1st, the marble-like buds open to large, creamy-white flowers with deep orange-yellow centers. While still flowering so exquisitely, the green leaves become brilliant scarlets and crimsons. A strikingly beautiful sight. Prefers full sun; somewhat moist but well-drained soil. M

4 to 5 ft. hgt.....\$15.00
5 to 6 ft. hgt..... 17.50

WHITE DOGWOOD

FLOWERING TREES—Continued

MAGNOLIA

Magnolia Soulangeana (SAUCER MAGNOLIA). Small, broad tree. Flowers large, cup-shaped, purplish outside, white at top, appear in early May before the leaves. M

2 to 3 ft. hgt.	\$6.00	5 to 6 ft. hgt.	\$16.00
3 to 4 ft. hgt.	9.00	6 to 7 ft. hgt.	\$20.00 to 25.00
4 to 5 ft. hgt.	12.00	7 to 8 ft. hgt.	30.00 to 35.00
8 to 9 ft. hgt.			\$40.00

M. Soulangeana alba. Similar to Soulangeana but with larger, almost white flowers. More upright grower, with rounder leaves. M

2 to 3 ft. hgt.	\$7.50	3 to 4 ft. hgt.	\$10.00	4 to 5 ft. hgt.	\$15.00
----------------------	--------	----------------------	---------	----------------------	---------

M. Soulangeana Lennei. An outstanding variety with very handsome, big, leathery leaves. Late blooms of deep purple, white inside. 2 to 3 ft. hgt. \$7.50 | 3 to 4 ft. hgt. \$10.00

M. stellata (STAR MAGNOLIA). Small, broad, rounding habit with star-shaped flowers of pure dazzling white. Hardest and finest of all. S

18 to 24 in. hgt.	\$7.50	3 to 4 ft. hgt.	\$15.00
2 to 3 ft. hgt.	10.00	4 to 5 ft. hgt.	20.00

Malus • FLOWERING CRABAPPLE

This wonderful group of trees offers a wealth of color, fragrance and fruit which, in addition, will aptly suit any location. No matter what habit of growth you might want—whether upright and regular; full, spreading and mounded; or interestingly irregular—there is a Flowering Crab to please you.

Malus adstringens Hopa. Erect form, with symmetrical, purple-tinged leaves and large red, single flowers. The dark red fruit of this variety is good for jelly and is most decorative of all varieties. F

4 to 5 ft. hgt., BR.	\$4.75	5 to 6 ft. hgt.	\$9.00
4 to 5 ft. hgt., B&B.	7.50	6 to 7 ft. hgt.	\$12.00 to 15.00
5 to 6 ft. hgt., BR.	6.00	7 to 8 ft. hgt.	20.00 to 25.00

M. Almey (ALMEY CRAB). An outstanding, vigorous new variety with large, unfading, brilliant red blossoms with white markings at petal base, giving a star effect. F

4 to 5 ft. hgt., BR.	\$4.75
4 to 5 ft. hgt., B&B.	7.50
5 to 6 ft. hgt.	10.00
6 to 7 ft. hgt.	15.00
7 to 8 ft. hgt.	20.00
8 to 10 ft. hgt.	\$25.00 to 30.00

M. Arnoldiana (ARNOLD CRAB). Semi-double, pink flowers opening to white. Yellow fruit. Makes a dense mound of shrub-like growth. M

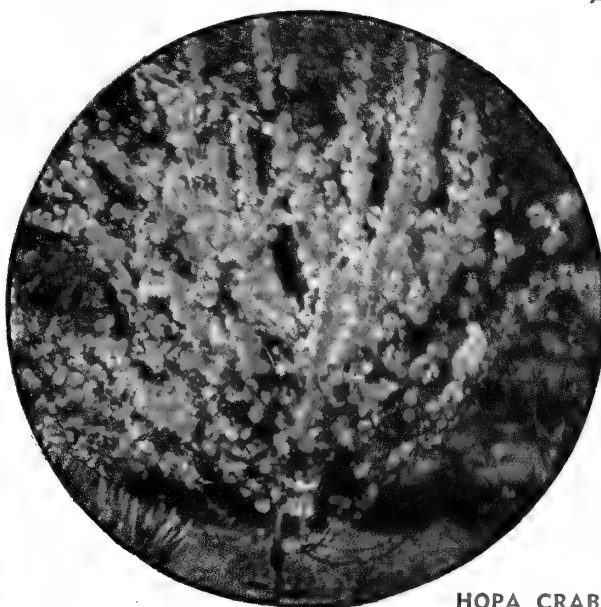

4 to 5 ft. hgt.	\$9.00	5 to 6 ft. hgt.	\$12.50
6 to 7 ft. hgt.			\$17.50

M. atrosanguinea (CARMINE CRAB). Single crimson flowers in great profusion. Low-headed tree, spreading habit with slightly twisted branches. M

4 to 5 ft. hgt.	\$9.00
5 to 6 ft. hgt.	\$12.00 to 15.00
6 to 7 ft. hgt.	20.00 to 25.00
7 to 8 ft. hgt.	35.00

WEeping JAPANESE CHERRY
(Prunus subhirtella)

HOPA CRAB

Malus hupehensis (TEA CRAB). Irregular, spreading top with zig-zag branches completely clothed with flowers. The red buds open to single pink blooms. Fruits are dull red. Tree in bloom is Apple-like; in form, vase-shaped. F

4 to 5 ft. hgt.	\$9.00
5 to 6 ft. hgt.	\$12.00 to 15.00

M. Katherine. A new Crabapple bearing heavily, masses of large, double pink flowers. Blossoms profusely even while young.

4 to 5 ft. hgt., BR.	\$4.75	4 to 5 ft. hgt., B&B.	\$9.00
---------------------------	--------	----------------------------	--------

M. micromalus (MIDGET CRAB). A fine, upright type with deep pink flower and yellow fruit. M

4 to 5 ft. hgt.	\$7.50	5 to 6 ft. hgt.	\$10.00
----------------------	--------	----------------------	---------

M. Sargentii (SARGENT'S CRAB). A dwarf, bushy, hardy variety. Sparkling white flowers and an abundance of small, red fruit clinging till Spring. The best variety where a small tree is desired which will not overgrow. Ideal for garden border or background. S

3 to 4 ft. spr.	\$10.00
----------------------	---------

ALMEY CRAB

Malus Eleyi (ELEY CRAB). A mass of crimson blooms. Bronzy foliage turning bright red in Fall. Heavily laden with bunches of shining, crimson fruit. M

4 to 5 ft. hgt.	\$7.50
5 to 6 ft. hgt.	10.00
6 to 7 ft. hgt.	15.00
7 to 8 ft. hgt.	20.00

M. floribunda. A single light pink variety bearing an abundance of fruit even when young. Very attractive to birds. Vigorous grower. M

4 to 5 ft. hgt., BR.	\$4.75
4 to 5 ft. hgt., B&B.	9.00
5 to 6 ft. hgt.	12.00 to 15.00
6 to 7 ft. hgt.	20.00 to 25.00
7 to 8 ft. hgt.	35.00 to 40.00

MOUNTAIN ASH

FLOWERING TREES—Continued

Malus Scheideckeri (SCHEIDECKER'S CRAB). Very early, double bright pink blossoms. Bears waxy, yellow, cherry-like fruit. Distinctly upright. Slender. M

4 to 5 ft. hgt.\$7.50 | 5 to 6 ft. hgt.\$9.00
6 to 7 ft. hgt.\$12.00

M. spectabilis (CHINESE CRAB). A shapely tree, with good, shiny foliage and fragrant, semi-double, delicate pink flowers. Pale yellow fruit. M

4 to 5 ft. hgt.\$7.50 | 5 to 6 ft. hgt.\$10.00
6 to 7 ft. hgt.\$12.00

Oxydendrum arboreum • SORREL TREE

A comparatively dwarf tree bearing an abundance of white flowers in Midsummer, with foliage several shades of red and crimson in Fall. Seldom seen in the Fall without being admired. M

3 to 4 ft. hgt.\$6.00 | 5 to 6 ft. hgt.\$12.00
4 to 5 ft. hgt. 9.00 | 6 to 7 ft. hgt.15.00
7 to 8 ft. hgt.\$20.00 to \$25.00

Prunus • FLOWERING CHERRY

These are the Oriental Cherries which are so famous in Washington D. C. They are easily grown and will produce the phenomenal display in Spring which so many journey to our Capitol to see.

Prunus serrulata Kwanzan. Outstanding in the double pink flowering Cherries. Flower buds are rose-red opening to clear pink "puffs" over 2 in. across. A large tree with wide spreading branches. M

4 to 5 ft. hgt., BR.\$5.00 | 4 to 5 ft. hgt., B&B.\$7.50
5 to 6 ft. hgt.\$10.00 to \$15.00

P. s. Amanogawa. Semi-double, pale pink flowers in profusion. Upright. 4 to 5 ft. hgt.\$7.50

P. s. Mount Fuji (Shirotae). Unusually lovely, with pure white, double flowers. F
4 to 5 ft. hgt., BR.\$5.00

P. s. Shirofugen. Double-flowering; pink in bud, opening to white. An old favorite. M
4 to 5 ft. hgt.\$7.50

P. Sieboldii Naden. A double, deep pink variety of upright growth. F
4 to 5 ft. hgt., B&B.\$7.50

P. subhirtella autumnalis. A small, bushy tree, shrub-like in habit, bearing blush-pink, semi-double flowers, partly in Autumn and partly in Spring.
4 to 5 ft. hgt.\$9.00 | 5 to 6 ft. hgt.\$12.00

P. s. Beni Higan. Small upright tree with gay, bright pink, single blooms. F
4 to 5 ft. hgt., BR.\$5.00 | 4 to 5 ft. hgt., B&B.\$9.00
5 to 6 ft. hgt.\$12.00

FLOWERING PLUM

FLOWERING CHERRY (Prunus Beni Higan)

WEeping CHERRIES

Prunus subhirtella pendula (WEEPING JAPANESE CHERRIES). A pendulous form of the Oriental Cherries planted at the Tidal Basin in Washington. Bright pink flowers in tremendous profusion in early Spring make this a joy to behold. S

3 yr., 6 ft. stems, BR.\$9.00

Prunus • FLOWERING PLUM

Prunus cerasifera, Newport (PURPLE-LEAVED PLUM). An improved variety of Prunus Pissardi—a lovely, small flowering tree with purple foliage and dainty pink blossoms. F

5 to 6 ft. hgt., BR.\$5.00

P. Thundercloud (PURPLE-LEAVED PLUM). The best of the flowering Plums, having cheerful, purple foliage and tiny pink flowers. A fine addition to your landscape picture.

4 to 5 ft. hgt.\$7.50 | 5 to 6 ft. hgt.\$10.00
6 to 7 ft. hgt.\$15.00

Sorbus • MOUNTAIN ASH

Sorbus Aucuparia (EUROPEAN MOUNTAIN ASH). Well-formed tree with small leaves and bearing large clusters of orange-red berries. Grows especially well in this area and much admired along the Parkways. A great attraction to birds. M

6 to 8 ft. hgt., B&B.\$9.00 | 8 to 10 ft. hgt., B&B.\$12.00
8 to 10 ft. hgt., BR. 4.75 | 10 to 12 ft. hgt. 15.00
12 to 14 ft. hgt.\$20.00

Styrax japonica • JAPANESE STORAX

Pure white, sweet-scented little bell-shaped flowers hang all along the branches in June, creating a charming, graceful effect. A handsome, spreading type of large shrub or small tree with glossy leaves, seldom growing taller than 15 feet. A good lawn specimen.

3 to 4 ft. hgt.\$7.50 | 6 to 7 ft. hgt.\$15.00
4 to 5 ft. hgt.10.00 | 7 to 8 ft. hgt. 20.00
5 to 6 ft. hgt.12.50 | 8 to 10 ft. hgt.25.00

SHADE TREES

One of the First Requisites of Comfortable Living and Good Landscaping

CHOOSE the varieties most suitable for your needs — most appealing to your taste. Air-condition your garden and home with strategically placed Shade Trees. Let Mother Nature help engineer a cooler Summer season and a warmer Winter period with well-chosen deciduous trees. If you are in doubt, consult ROSEDALE'S trained nurserymen who can tell you about climate control through proper selection and placement of trees and plants.

We grow only those varieties which will thrive in this climate and we welcome your selection. In addition, ROSEDALE SHADE TREES are grown far enough apart in wide-spaced rows to permit lateral as well as upright growth.

ALL SHADE TREES ARE BARE ROOT EXCEPT AS MARKED BALLED AND AND BURLAPPED (B & B)

For Planting Instructions, Please See Page 3 for B & B Material, and Page 40 for B R Material)

Acer • MAPLE

The Maples are universally popular. They are regular in outline, vigorous in growth, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is especially desirable for street plantings; thrives well near the sea.

Acer palmatum atropurpureum (RED-LEAVED JAPANESE MAPLE). A comparatively dwarf Maple, slow in growth, and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are well-shaped trees. All B&B. S
 15 to 18 in. \$6.00 | 2 to 2½ ft. \$10.00
 18 to 24 in. 7.50 | 2½ to 3 ft. 15.00

A. platanoides (NORWAY MAPLE). Foremost of the Maples because of its regular outline, widespreading branches and deep, green foliage which is retained even after the first heavy frosts. Becomes a good shade tree quickly.
 1½ to 2 in. cal. \$16.00 (\$6.00 charge for balling)
 2 to 2½ in. cal. 24.50 (\$6.50 charge for balling)
 2½ to 3 in. cal. 33.00 (\$7.00 charge for balling)
 3 to 3½ in. cal., B&B. \$50.00
 3½ to 4 in. cal., B&B. 67.50

Larger sizes priced on selection

A. p. Schwedleri nigra (CRIMSON KING Norway Maple—Plant Patent No. 735). Crimson King is a beautiful form of Schwedler's Maple. Brilliant crimson all through the Summer months. F
 6 to 8 ft. hgt., BR. \$10.00 | 6 to 8 ft. hgt., B&B. \$15.00 to \$20.00

A. saccharum (SUGAR MAPLE). A beautiful tree of upright form. Attains a greater height than the Norway Maple, with brilliant red and yellow coloring in Fall. All B&B. M
 1½ to 2 in. cal. \$25.00 | 2½ to 3 in. cal. \$45.00
 2 to 2½ in. cal. 35.00 | 3 to 3½ in. cal. 65.00

Larger sizes priced on selection

Betula • BIRCH

Betula pendula (EUROPEAN WHITE BIRCH). Very graceful habit and creamy white bark even in the young trees. All B&B. M
 6 to 8 ft. hgt. \$10.00 to \$12.00 | 10 to 12 ft. hgt. \$20.00 to \$25.00
 8 to 10 ft. hgt. 15.00 to 20.00 | 12 to 14 ft. hgt. 25.00 to 35.00

B. papyrifera (CANOE, or WHITE PAPER BIRCH). Beautiful white bark on trunk and older branches peels off in papery layers. Always a great favorite. All B&B.
 6 to 8 ft. hgt. \$10.00 to \$12.50 | 10 to 12 ft. hgt. \$20.00 to \$25.00
 8 to 10 ft. hgt. 15.00 | 12 to 14 ft. hgt. 40.00 to 50.00
 14 to 16 ft. hgt. \$50.00 to \$75.00

Larger specimens priced on selection

B. pendula gracilis (WEeping CUTLEAF BIRCH). You will find grace, charm and beauty combined in this popular tree, with its silvery white bark, graceful drooping branches and small, finely cut leaves. Emphasizes the compact lines of evergreens. All B&B.
 6 to 8 ft. hgt. \$10.00 | 8 to 10 ft. hgt. \$15.00
 10 to 12 ft. hgt. \$20.00

P. populifolia (SILVER, or GRAY BIRCH). Generally in clumps of two or more white trunks, rising gracefully from the ground. The small leaves quiver at the slightest breeze. All B&B. M
 6 to 8 ft. hgt. \$10.00 to \$12.50 | 10 to 12 ft. hgt. \$20.00 to \$25.00
 8 to 10 ft. hgt. 15.00 | 12 to 14 ft. hgt. 40.00 to 50.00
 14 to 16 ft. hgt. \$50.00 to \$75.00

Larger specimens priced on selection

Fagus • BEECH

Fagus grandifolia (AMERICAN BEECH). A handsome native tree with clean, gray-barked trunks. Prefers well-drained soil. All B&B. M
 7 to 8 ft. hgt., heavy. \$50.00 | 8 to 9 ft. hgt., heavy. \$60.00

F. sylvatica (EUROPEAN BEECH). For screen or hedge this Beech is ideal among deciduous material. Prunes well so can be kept within bounds. All B&B. M
 10 to 12 ft. hgt. \$50.00 to \$60.00 | 12 to 14 ft. hgt. \$60.00 to \$70.00

F. s. atropunicea (RIVERS PURPLE BEECH). Similar to the European Beech except for its beautiful purple foliage. Handsome and dignified. All B&B. S
 2 to 3 ft. hgt. \$10.00 | 4 to 5 ft. hgt. \$17.50
 3 to 4 ft. hgt. 12.50 | 5 to 6 ft. hgt. 25.00

GINKGO

Ginkgo biloba (MAIDENHAIR TREE). One of the oldest things in the world is the Ginkgo tree. With its single straight trunk, and broad, conical head, it is extremely popular. The Ginkgo tolerates unfavorable city conditions and a wide range of soil conditions; withstands wind, and is virtually free from pests. Transplants easily. M
 6 to 8 ft. hgt., B&B. \$16.00 | 3 to 3½ in. cal., B&B. \$45.00

Gleditsia • HONEYLOCUST

Gleditsia triacanthos inermis (THORNLESS HONEYLOCUST). A truly lovely tree spreading a canopy of lace-like foliage. Free from insect pests, hardy, and long lived. Almost entirely free from thorns, many less than older forms. Something different in a shade tree with its light, airy grace. F

2 to 2½ in. cal. \$24.50 (add \$6.50 for balling)
 2½ to 3 in. cal. 33.00 (add 7.00 for balling)

Gymnocladus dioica • KENTUCKY COFFEE TREE

A handsome and picturesque tree of easy culture. Glossy, green leaves with inconspicuous greenish-white hanging clusters of flowers, followed by long, attractive pods, make this unusually interesting. All B&B.

2 to 2½ in. cal. \$25.00 | 2½ to 3 in. cal. \$30.00
 3 to 3½ in. cal. \$35.00

Liquidambar • SWEET GUM

Liquidambar styraciflua (SWEET GUM). A most interesting and satisfactory shade tree. It likes moisture and grows to immense size. Star-shaped leaves are blazing scarlet in Autumn. Very resistant to insects. All B&B. S

6 to 7 ft. hgt. \$20.00 | 8 to 10 ft. hgt. \$40.00
 7 to 8 ft. hgt. 30.00 | 10 to 12 ft. hgt. 50.00

SHADE TREES—Continued

Nyssa sylvatica • SOUR GUM or TUPELO

A small spreading tree which likes low ground and has the most brilliant Fall coloring of all the Shade trees. S All B&B.

4 to 5 ft. hgt.	\$15.00
5 to 6 ft. hgt.	20.00
6 to 7 ft. hgt.	25.00
7 to 8 ft. hgt.	\$30.00 to 35.00
8 to 9 ft. hgt.	40.00

Platanus • PLANE

Platanus acerifolia (LONDON PLANE). This Sycamore is acclaimed for its charm, quick development, resistance to leaf spotting, tolerance of city smoke. Excellent for street plantings. F

8 to 10 ft. hgt.	\$16.00
10 to 12 ft. hgt.	20.00
2½ to 3 in. cal.	B&B..... 40.00

Populus • POPLAR

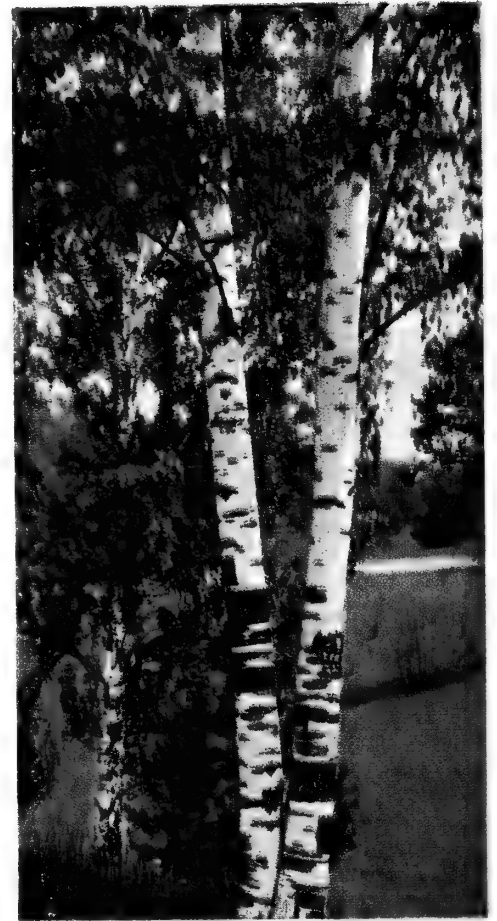

Populus nigra italica (LOMBARDY POPLAR).

The slender, upright form of growth makes these trees especially desirable for road plantings, property borders or along a stream. Quick-growing, they make a good screen when planted close together. The soft patter of the leaves as the Summer breeze ripples through them makes the Lombardy Poplar especially appealing. F

6 to 8 ft. hgt.	\$3.50
-----------------	--------

NORWAY MAPLE

WHITE BIRCH

Quercus • OAK

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their yearly growth equals that of almost any other species.

Quercus palustris (PIN OAK). A superb tree, distinct in its character. The Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves. Deep red in Fall. M All B&B.

3½ to 4 in. cal.	\$85.00	4½ to 5 in. cal.	\$145.00
4 to 4½ in. cal.	110.00	5 to 5½ in. cal.	175.00

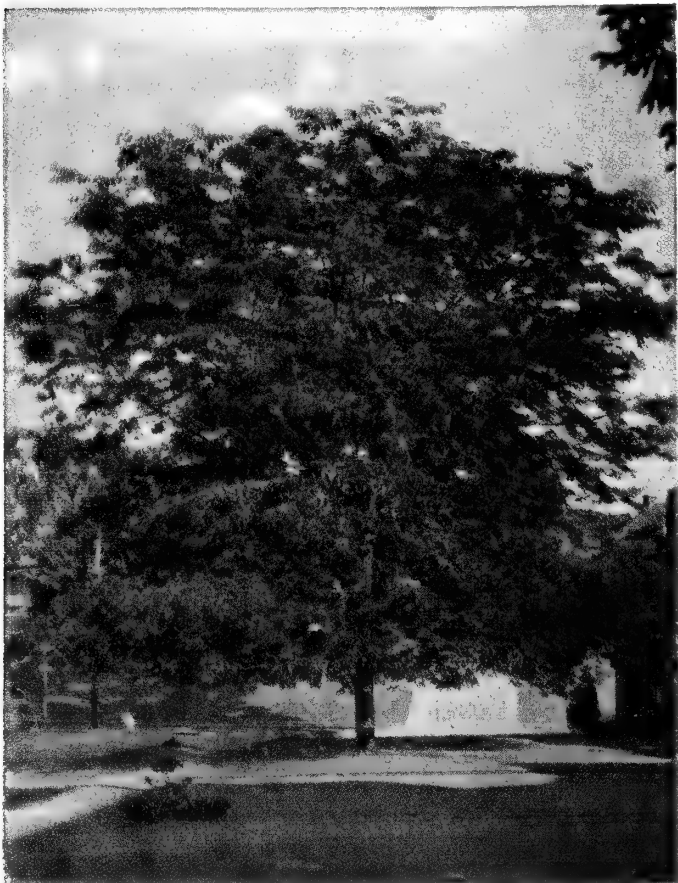

Salix • WILLOW

Salix babylonica (WEeping WILLOW). Long, stringy branches droop vertically to the ground and with the narrow, light green leaves create a soft, velvety texture. Grows rapidly especially when close to water. Makes a beautiful screening where needed in low, moist locations. F

6 to 8 ft., B&B, heavy.	\$9.00 to \$12.00	8 to 10 ft., B&B, heavy.	\$12.00 to \$17.50
-------------------------	-------------------	--------------------------	--------------------

S. b. Niobe (GOLDEN TWIG WEeping WILLOW). Typical Willow, but with golden twig. F

5 to 6 ft., BR.	\$3.75	6 to 8 ft., B&B.	\$5.00
6 to 8 ft., B&B, heavy.	\$9.00 to \$15.00		

NEW MORaine LOCUST (Plant Patent 836)

THE NEW MORaine LOCUST

(Plant Patent No. 836)

A beautiful, new form of Locust—both thornless and seedless. This vigorous tree grows rapidly, creating light, airy shade quickly. Outstandingly hardy, but prefers sunny, exposed situations. A most desirable addition to our Shade Tree varieties.

6 to 8 ft.	\$10.00
6 to 8 ft., B&B.	12.50
8 to 10 ft., B&B.	\$16.00 to 20.00
10 to 12 ft., B&B.	25.00 to 30.00

NIOBE WILLOW

HARDY CLIMBING VINES and GROUND COVERS

Rosedale
NURSERIES inc.
EASTVIEW, N. Y.

THESE cheery, reliable Vines and Ground Covers — some evergreen, many flower-bearing — transform bare walls and fences, and fill in and soften new, undeveloped underplantings, creating a feeling of warmth, beauty and permanence.

To aid you in starting a quick vine growth, we preplanted in pots most of our varieties and many will climb 6 to 10 feet the first season.

For Planting Instructions, Please See Directions for Planting Bare Root Material on Page 40

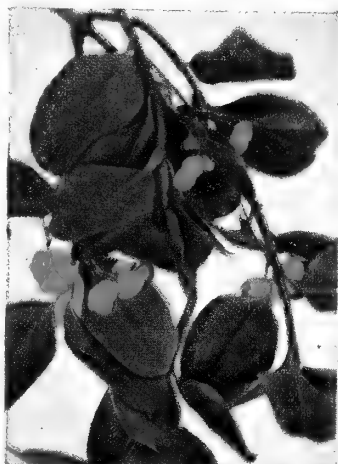

AKEBIA

Akebia quinata. A very graceful, rapid-growing vine. The foliage is extremely attractive and the rosy-purple flowers in May are followed by ornamental fruit. F
2 yr. \$1.25 each, \$12.50 per doz.

Campsis • TRUMPET VINE

Campsis radicans (TRUMPET CREEPER). Orange-scarlet, trumpet-shaped flowers in clusters from July to September on mature vines. Rapid grower but does not flower young. Must be supported. F
2 yr. \$1.00 each, \$10.00 per doz.

C. Mme. Galen. An especially fine variety, similar to above, but with very large, striking, salmon-red trumpets. We highly recommend this decorative vine. M
2 yr. \$1.25 each, \$12.50 per doz.

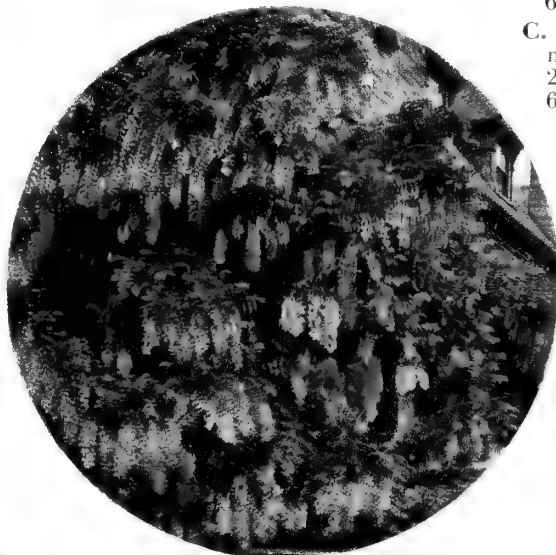

EVERGREEN BITTERSWEET

Celastrus • BITTERSWEET

Celastrus scandens (NATIVE BITTERSWEET). This native variety is well-known to all because of its characteristic large clusters of brilliant red and yellow berries in tremendous profusion. F
18 to 24 in. \$1.25 each, \$12.50 per doz.

Clematis • VIRGIN'S BOWER

Clematis paniculata (OLD-FASHIONED CLEMATIS). The sweet September fragrance of this old favorite indicates its presence long before the flower-laden vine is seen and the feathery seeds are also decorative. The myriads of snowflake-like white flowers make this a real addition to the home. F
2 yr. \$1.00 each, \$10.00 per doz.
2 yr. heavy potted \$1.50 each

CHINESE WISTERIA

EUONYMUS

Euonymus Fortunei coloratus (WINTER-CREEPER). Outstanding for its dark purple leaves in Summer which turn rose color in Fall. Also useful as a ground cover.
10 to 12 in. 75c. each, \$7.50 per doz.

E. F. Kewensis. Tiny leaves marked white along the veins. Very dainty and effective.
3 in. pots. \$1.25 each

E. F. radicans. Smaller, more pointed leaves with white veins distinguish this from the more rapid growing E. F. vegetus. S
10 to 12 in. \$1.25 each | 12 to 15 in. \$1.75 each

E. F. vegetus (EVERGREEN BITTERSWEET.) Low spreading shrub but will climb high on masonry walls. Orange berries. M
10 to 12 in. \$1.25 each | 12 to 15 in. \$1.75 each
15 to 18 in. \$2.50 each

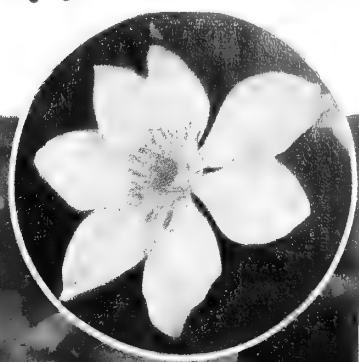

PACHYSANDRA (See page 18)

HENRYI

VILLE DE LYON

JACKMANII

CLEMATIS—Continued

Clematis Jackmanii (PURPLE CLEMATIS). Large, purple single flowers from June to August. Striking. M
2 yr., 2 to 3 ft. \$1.50 each, \$15.00 per doz.
6 in. pots. \$2.00 each

C. Henryi. Enormous white, single flowers, sometimes measuring 8 in. across. Outstanding quality of bloom.
2 yr., 2 to 3 ft. \$1.50 each
6 in. pots. 2.00 each

C. montana rubens. The rosy-red Anemone-like flowers turn pink with age. Rich dark foliage; vigorous grower, reaching 15 ft. Hardy. F
2 yr., 2 to 3 ft. \$1.25 each
6 in. pots. 2.00 each

C. Ramona. Large lavender-blue, single flowers through the Summer. S
2 yr., 2 to 3 ft. \$1.25 each
6 in. pots. 2.00 each

C. Ville de Lyon. Large, carmine-red, single flowers in abundance throughout the Summer.
2 yr., 2 to 3 ft. \$1.50 each
6 in. pots. 2.00 each

POLYGONUM (Silverlace)

HARDY CLIMBING VINES—Continued

Hydrangea Petiolaris •

This Climbing Hydrangea is a superb vine having broad, handsome, overlapping foliage and delightfully fragrant panicles of white flowers in July. Climbs on any surface and is extraordinarily beautiful.
6 in. pots, 15–18 in.\$4.50

IVIES

Hedera Helix (ENGLISH IVY). The truly evergreen Ivy which so picturesquely covers many stone buildings. English Ivy will gracefully hang over a wall or may be planted at the base and trained up. A grand ground cover. Plant in mass under trees or other shady or semi-shady locations. M

3 in. pots.....40c. each, \$4.50 per doz.
4 in. pots, heavy plants...85c. each, 9.00 per doz.

H. Roumanian Ivy. Var. Hardier strain of English Ivy. Evergreen.
3 in. pots.....50c. each, \$5.00 per doz.

Parthenocissus quinquefolia (VIRGINIA CREEPER), or WOOD-BINE). This vigorous, handsome vine is particularly striking, with its Fall coloring. Especially recommended for walls and fences. F
2 yr.....\$1.00 each, \$10.00 per doz.

P. tricuspidata Veitchi (BOSTON IVY). Closely clinging vine with medium sized leaves, turning red in Autumn. Its rapid growth and close clinging habit, make it most popular for brick, stone, or stucco walls. M
2 yr.....\$1.00 each, \$10.00 per doz.

Lonicera • HONEYSUCKLE

Lonicera japonica Halliana (HALL'S HONEYSUCKLE). Semi-evergreen ground cover or vine, with fragrant, yellow and white flowers. Indispensable where thick, quick coverage is desired. F
2 yr.....50c. each, \$5.00 per doz., \$37.50 per 100

Pachysandra terminalis • JAPANESE SPURGE

Most popular evergreen ground cover plant; spreads rapidly and gives the finishing touch to a planting of conifers. Grows in shade where grass will not thrive. Use plenty of humus in soil and plant closely. M
Rooted Cuttings.....\$6.00 per 100, \$50.00 per 1000

Polygonum Aubertii • SILVER LACE

Slender, vigorous vine for arbor, trellis or fence. Curious silver-white flowers in tremendous profusion. F
2 yr., field-grown.....\$1.25 each, \$12.50 per doz.
6 in. pots.....\$1.75 each

Vinca minor • MYRTLE

Dense, evergreen ground cover, with small, dark green leaves on slender trailing branches. Blue flowers in late Spring. M
2 yr., field-grown.....\$4.20 per doz., \$27.50 per 100

Wisteria sinensis • CHINESE WISTERIA

Fragrant, lavender flowers in long, drooping clusters. Grafted plants only. The most reliable to bloom. M
2 yr.....\$1.75 each | 4 yr.....\$2.75 each
Larger sizes available—Priced on selection

Wisteria Jako. White.
2 yr.....\$1.75 | 4 yr.....\$2.75

GROUND COVERS

2 year, field-grown.....\$4.20 per doz., \$27.50 per 100

Introducing Rosedale

CONTAINER-GROWN NURSERY STOCK

Adopted from the West Coast for greater success with difficult-to-transplant (the lovely Cotoneasters and Fire-thorn) and out-of-season (Lilacs and Peonies in bloom) plants.

At the Nursery—Container is slit (left) with cutter (center) and tied (right) for transport home.

At Home—Simply remove the tie, spread the can sides (as started on the left), allowing the root and soil mass to be lifted out to the planting hole.

Containers insure controlled conditions resulting in fine fibrous roots on bushy, compact plants.

Your Garden Can Bloom at Night—with Light!

SOFT, harmonious lighting that soothes and relaxes yet permits you to see and read as easily as in your living room. Continue the enjoyment of your daytime vistas through the evening hours. Especially appreciated by the commuting husband who sees all too little of his week-end gardening.

Lytescape Lighting

is intriguing — easily moved about at will to suit your location and mood. They may be snuggled among your plants or hidden in the trees. So scarcely noticeable are the fixtures that a veritable fairyland is created by the flick of a switch—no special installations are needed.

DOUBLE\$26.10 SINGLE\$17.20

Two light "Mushroom" for path, drive, flowerbed. Also comes in one light version. Including 12 ft. "Add-a-Unit" Cordset.

\$17.20

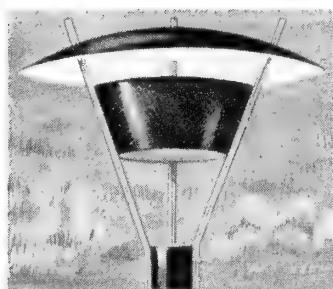

Deep Bullet stakes into ground, clips to trees or eaves.

Including 12 ft. "Add-a-Unit" Cordset

\$47.00

PATIO LAMP

Post or portable patio lamp has exclusive "Add-a-Unit" Cord Set so radio or Rotisserie can be plugged right into its own cord.

All Prices Subject to Change Without Notice

Visit the Nurseries

and see our display of this brand new type of outdoor lighting in action. You will be amazed, as, frankly, we were, to see how effective even a few strategically placed lights can be!

Or if you would like

to see on your own grounds how LYTESCAPE would create new evening vistas and living area for you and your family, our landscape representatives will be glad to call on you and show you.

Telephone PLeasantville 2-1300 or MEdford 1-5353 for appointment

COMPLETELY WATERPROOF AND WEATHER - RESISTANT

Constructed of rugged, rustproof aluminum with bottom openings to permit self-ventilation, self-draining, and self-cleaning.

Each light requires no more current than is used by an average reading light.

The "Add-A-Unit" Cordset permits plugging one unit into another to form a continuous series of units.

All of these lights are made by Lightolier—known for superiority of design and quality in the lighting field.

ROSEDALE ROSES

BRING you real pleasure and satisfaction because of their exquisite beauty of form and color, excellent root systems, superior quality. All Varieties Are Hardy—Especially Suited to Westchester Soils and Climatic Conditions. All Plants Are Well Rooted and Well Budded

PLANTING INSTRUCTIONS: 1. Select well drained soil; 2. Dig the hole large enough to accept roots easily; 3. Fill in half the soil and tamp down; water thoroughly; 4. Fill in balance of soil, mixed with liberal quantity of fertilizer, heaping soil in 6-inch mound around plant. (Level this mound when growth starts.)

We suggest APRIL PLANTING but we urge you to order early to be sure of widest selection. Shipment will be made at proper time.

Outside our Delivery Area, Dormant Roses are shipped by Parcel Post at our expense. Prices are shown in each group. Add 50c. each for Potted Roses later in the season.

ALL ROSES ARE NO. 1 GRADE, 2-YEAR, FIELD-GROWN

PATENTED HYBRID TEA ROSES—Specially Selected

Each year we carefully study the stock of available Hybrid Tea Roses and select only the choicest ones to assure you, as best we can, of obtaining real pleasure and success from your Roses. These particular varieties are notable for their exceptionally fine characteristics of beautiful form, wonderful fragrances, rich, vibrant colors—and dependable hardiness and outstanding vigor. Without the last two characteristics, the former qualities are useless to you. Make the selection you wish, in any combination—all are excellent in quality of bloom and thriftiness of stock. Enjoy a **ROSEDALE ROSE GARDEN**.

- Blanche Mallerin** (Plant Pat. No. 594). Fragrant, well-shaped buds open to lovely, pure white blooms. Good grower, beautiful foliage. Considered tops in whites. \$2.00 each; three or more, \$1.75 each.
- Charlotte Armstrong** (Plant Pat. No. 455). Long, slender, cerise buds open to magnificent blooms; moderately fragrant; luxurious foliage. An outstanding favorite since 1941. \$2.00 each; three or more, \$1.75 each.
- Chrysler Imperial** (Plant Pat. No. 1167). Sole winner of 1953 All-America Award for Hybrid Tea Roses. Brilliant crimson of exquisite form, both in bud and full flower. Large, perfect, high-centered blooms of rich fragrance. \$2.50 each; three or more, \$2.20 each.
- Forty-Niner** (Plant Pat. No. 792). The most brilliant of all bicolored Roses; inside of petals is vivid red with outside chrome yellow. Mildly fragrant. \$2.25 each; three or more, \$2.00 each.
- Good News** (Plant Pat. No. 426). Fragrant, well-formed flower of delicate pink and apricot. Vigorous, well-shaped plant. Prolific bloomer. \$2.00 each; three or more, \$1.75 each.
- Grande Duchesse Charlotte** (Plant Pat. No. 774). Very large, full flowers of Tomato-red shaded Geranium-red. Long, strong stems. \$2.00 each; three or more, \$1.75 each.
- Helen Traubel** (Plant Pat. No. 1028). This glorious 1952 All-America Winner and Gold Medal of Rome Winner varies from sparkling pink to luminous apricot, depending upon the weather. Tall, bushy, vigorous plant almost never without some buds or blooms of fine, spicy fragrance. Truly deserving of its international recognition as one of the finest Roses. \$2.50 each; three or more, \$2.20 each.
- K. T. Marshall** (Plant Pat. No. 607). Deep coral-pink, suffused with yellow. Fruity fragrance; tall, hardy, very vigorous. \$1.75 each; three or more, \$1.55 each.
- La Jolla** (Plant Pat. No. 1103). One of the loveliest additions to our list. The cream and gold heart of this flower blends into the pink petal tips. Camellia-like in form. Exquisite. \$2.75 each; three or more, \$2.40 each.
- Mme. Henri Guillot** (Plant Pat. No. 337). Unusual, vivid pink coloring—it almost glows. Handsome foliage. \$2.00 each; three or more, \$1.75 each.
- Mojave** (Plant Pat. No. 1176). Finest orange-colored Rose with scarlet and vermilion flame tones. Tall, vigorous, excellent for cutting. Most honored Rose of 1954—International winner. \$2.75 each; three or more, \$2.40 each.
- New Yorker** (Plant Pat. No. 823). Fiery red blooms on long, stiff stems; very fragrant; exciting color, wonderful accent. \$2.00 each; three or more, \$1.75 each.
- Nocturne** (Plant Pat. No. 713). One of the finest reds, cardinal red with crimson shadings. All-America Award Winner, 1948. Longest, streamlined buds. \$2.00 each; three or more, \$1.75 each.
- Peace** (Plant Pat. No. 591). Rich, warm, yellow-ivory tones blend with delicate pink tints in these unusually large, long-lasting blooms. One of finest Roses ever produced. Sole All-America Winner, 1946. \$2.50 each; three or more, \$2.20 each.
- President Eisenhower** (Plant Pat. No. 1217). A brilliant, new red Rose. Large, deep red buds open to clear bright red; fragrant and continuous bloomer of good branching habit. \$2.00 each; three or more, \$1.75 each.
- Rex Anderson** (Plant Pat. No. 335). An exhibition Rose of delicate ivory-white. \$1.75 each; three or more, \$1.55 each.
- Show Girl** (Plant Pat. No. 646). For the most beautiful, the most perfect, longest deep pink buds, plant this Rose. This is one of the finest pink Roses and its excellence for cutting has long since been recognized. Unusually flourishing in growth and bloom. Delicate fragrance. \$2.00 each; three or more, \$1.75 each.
- Sutter's Gold** (Plant Pat. No. 885). Bright yellow shaded with red. Most fragrant yellow Rose. 1950 All-America and International Winner. \$2.25 each; three or more, \$2.00 each.
- Tallyho** (Plant Pat. No. 828). Delightful pink petals on inside with almost crimson on outside. Beautiful buds on long stems. Rich, spicy fragrance. Easy to grow. 1949 All-America Winner. \$2.00 each; three or more, \$1.75 each.
- Tiffany** (Plant Pat. No. 1304). A new pink of lovely clear color and salmon undertones. Very vigorous with alluring fragrance. 1955 All-America Winner. \$2.75 each; three or more, \$2.40 each.

EVERBLOOMING HYBRID TEA ROSES

CONTINUOUS BLOOMS IN PROFUSION FROM JUNE TO FALL — SELECTED, 2-YEAR-OLD STOCK — FIELD-GROWN, NO. 1 GRADE

\$1.50 each, 3 or more \$1.30 each, 12 for \$12.50

- Caledonia**. Large, WHITE, very double. Hardy. Striking.
- Christopher Stone**. Velvety SCARLET-CRIMSON. Very fragrant; very effective.
- Condesa de Sastago**. Coppery PINK TWO-TONE with golden tint. Raspberry fragrance.
- Countess Vandal**. BICOLOR, COPPERY-BRONZE and pink flooded with gold. Fine fragrance.
- Crimson Glory**. DEEP VIVID CRIMSON. Wonderful fragrance.
- Duquesa de Penaranda**. BI-COLOR COPPER-APRICOT. Long-stemmed and very fragrant. Handsome.
- Eclipse**. Exquisite CHROME YELLOW. Spicy fragrance.
- Etoile de Hollande**. Very fragrant, BRIGHT RED. Large, semi-double.
- Frau Karl Druschki**. SNOW-WHITE. Large, double, open. Scentless.
- K. A. Viktoria**. PEARL-WHITE, lemon-yellow center. Very fragrant. Fine for accent.
- McGredy's Ivory**. Creamy IVORY-WHITE buds open to snowy-white. Delicate perfume.
- McGredy's Yellow**. Unfading, CANARY-YELLOW. Vigorous.
- Mrs. P. S. Du Pont**. Rich, RED-GOLD of spicy fragrance.
- Picture**. Clear, dainty PINK in perfect form. A "perfect picture."
- Pink Dawn**. Deep ROSE-PINK to bright pink. Fragrant. Vigorous.
- Poinsettia**. Most brilliant RED. Rich, velvety, long lasting. Fragrant.
- Pres. Hoover**. Large flowers of YELLOW and FLAMING SCARLET.
- Soeur Therese**. GOLDEN YELLOW, with carmine-tipped petals. Very large, semi-double.
- The Doctor**. Enormous SILVERY-PINK; very fragrant.

THE GRANDIFLORAS

A BRAND NEW CLASS OF ROSES—A HYBRID BETWEEN THE FLORIBUNDA AND HYBRID TEA

This Rose class features the high-centered, classic form of Hybrid Teas with clusters of blooms characteristic of the Floribundas, on long stems. Very useful for cutting and arrangements. These are exceedingly vigorous and taller growing—sometimes reaching 5 or 6 feet. May be planted in the shrub border or as a background.

Buccaneer (Plant Pat. No. 1119). Clear, yellow Rose of great brilliance and lasting qualities. Gold Medal Winner at Geneva. \$2.50 each; three or more, \$2.20 each.

Carrousel (Plant Pat. No. 1066). One of the best new reds in any class. Outstanding dark red and non-fading flowers almost as large as Hybrid Teas. In flower all season. \$2.00 each; three or more, \$1.75 each.

Montezuma (Plant Pat. No. 1383). Newest Grandiflora. Scarlet-orange tones give a rich, coppery-bronze effect suggestive of the bronze of the days of Montezuma. Long, slender buds in dense clusters open to full, perfect Roses. Tall, free branching and bushy. Very unusual coloring in a Rose. \$2.75 each; three or more, \$2.40 each.

Queen Elizabeth (Plant Pat. No. 1259). A Grandiflora with typical, very vigorous, tall-growing habit. This 1955 All-America Winner is a delicate clear pink of exquisite form. Stems almost thornless. \$2.75 each; three or more, \$2.40 each.

Roundelay (Plant Pat. No. 1280). Very dark red in bud, it opens neat and full like a Camellia, to a somewhat lighter red. The heavy fragrance is delightful. \$2.75 each; three or more, \$2.40 each.

FLORIBUNDA ROSES

(THE SHRUB TYPE OF ROSE)

Floribunda Roses are noted for their full bushiness and their great profusion of continuous blooms. Truly everblooming and especially effective for border and hedges. Plant them 2 to 3 feet apart.

We list here a selected group of Floribundas giving you the colors to aid in making your choice.

Betty Prior (Plant Pat. No. 340). Pink, very fragrant. Best for mass planting. \$1.50 each; three or more, \$1.30 each.

Circus (Plant Pat. No. 1382). The ONLY AARS Winner for 1956. This CIRCUS gives a performance unequalled to any multicolor Floribunda with the "greatest show" of color from orange tones to yellows, pinks and bright reds. Breathtaking in its myriads of color changes, it holds the "center of the ring" too, for its dainty buds opening to beautiful, high centered flowers; its handsome foliage; and its medium low, compact growth. Mildly fragrant. \$2.50 each; three or more, \$2.20 each.

Donald Prior (Plant Pat. No. 377). Bright red; free flowering. \$1.50 each; three or more, \$1.30 each.

Fashion (Plant Pat. No. 789). Exquisite coral-pink suffused with gold; enchanting fragrance. \$2.00 each; three or more, \$1.75 each.

Floradora. Brilliant vermilion; prolific and continuous. \$1.50 each; three or more, \$1.30 each.

Frolic (Plant Pat. 1179). New. Very bright pink, free-flowering, fairly large flowers give mass color effect. Repeat bloomer. Thick, bushy plant. \$2.00 each; three or more, \$1.75 each.

Garnette. Petite, deep red Roses used so much by florists. Of "sweetheart" type and long lasting. Beautiful foliage. Now available for outdoor growing—a real gem in your garden. \$1.50 each; three or more, \$1.30 each.

Goldilocks (Plant Pat. No. 672). Rich, clear, golden yellow of "Sweetheart Rose" type. \$1.50 each; three or more, \$1.30 each.

Jiminy Cricket (Plant Pat. No. 1346). Bright apricot-orange. 1955 All-America winner; pleasantly fragrant. \$2.25 each; three or more, \$2.00 ea.

Lilibet (Plant Pat. No. 1209). 1954 Floribunda AARS Winner. Exquisite pink buds and blooms; excellent for small arrangements or corsages. Bushy plant of medium height. \$2.00 each; three or more, \$1.75 each.

Ma Perkins (Plant Pat. 1143). Enchanting new Floribunda and All-America Winner for 1953. This delightful Rose offers an intriguing range of pinks from deep coral-pink buds suffused with red, to warm pink flowers, finishing a shell pink. Unusually attractive throughout all stages. \$2.00 each; three or more, \$1.75 each.

Masquerade (Plant Pat. No. 975). A unique effect from its many colors on one plant, running the gamut from golden yellow and lemon to pink, red and even orange. \$2.00 each; three or more, \$1.75 each.

Pink Bountiful (Plant Pat. No. 601). Soft, glowing pink in unusual profusion; hence the name. \$1.50 each; three or more, \$1.30 each.

Pinocchio (Plant Pat. No. 484). Tiny, salmon-pink blooms. Dwarf, bushy. \$1.50 each; three or more, \$1.30 each.

Redcap (Plant Pat. No. 1292). Large, fiery red flowers in clusters top the dark green, luxuriant foliage. Vigorous, upright plant. \$2.25 each; three or more, \$2.00 each.

Red Pinocchio (Plant Pat. No. 812). Glowing carmine. Masses of blooms, richly scented. \$1.50 each; three or more, \$1.30 each.

Vogue (Plant Pat. No. 926). Lovely little flame-red buds, flared slightly at the end, become a mass of cherry-coral blooms—a wonderful display. Delightful, spicy fragrance. 1952 All-America Winner. \$2.00 each; three or more, \$1.75 each.

White Pinocchio (Plant Pat. No. 1010). White, fully double flowers in clusters in profusion. \$1.50 each; three or more, \$1.30 each.

World's Fair (Plant Pat. No. 362). Dark, velvety maroon blooms virtually hide this bushy plant. \$1.50 each; three or more, \$1.30 each.

VIGOROUS CLIMBING ROSES

With Abundant Blooms

A constant source of enjoyment on the home grounds. Plant on walls, fences or trellises. Plant 4 feet apart. These Rosedale Climbing Roses require little care.

Aloha (Plant Pat. No. 948). An excellent new climber, with big, double, coral-pink buds opening to rich, silvery rose-pink. Long-stemmed clusters create magnificent effect. \$2.50 each; three or more, \$2.20 each.

Improved Blaze. The overwhelmingly popular scarlet climber. Vivid, double flowers. Plant takes on everblooming qualities as it matures. \$1.50 each; three or more, \$1.30 each.

Crimson Glory (Plant Pat. No. 736). The climbing form of one of the permanent favorites of Rose lovers. Luxuriant, fast-climbing with deep crimson flowers of captivating fragrance. Recurrent blooming. \$2.50 each; three or more, \$2.20 each.

Dr. J. H. Nicolas (Plant Pat. No. 457). Cupped, rose-pink blooms in clusters; flowers almost 6 in. in diameter. Very fragrant. \$2.00 each; three or more, \$1.75 each.

Doubloons. Huge, double apricot-tinged, yellow blooms. Fragrant. \$1.50 each; three or more, \$1.30 each.

High Noon (Plant Pat. No. 704). Intense, clear, unfading yellow; long-stemmed, perfect buds. Everblooming, producing all season. All-America Winner. \$2.50 each; three or more, \$2.20 each.

Mrs. E. P. Thom. Climbing form of the favorite Hybrid Tea, with fine, clear, deep canary-yellow blooms. \$1.50 each; three or more, \$1.30 each.

New Dawn. Delicate pink blooms in great profusion all Summer into late Fall. One of the hardiest. \$1.50 each; three or more, \$1.30 each.

Paul's Scarlet. Intensely red flowers in masses. Most popular red until Blaze. \$1.50 each; three or more, \$1.30 each.

Silver Moon. Big, saucer-shaped, moon-white flowers with brilliant yellow centers. Handsome foliage. \$1.50 each; three or more, \$1.30 each.

Snow Bird. Dainty, snow white buds open to small, perfect flowers of pleasant fragrance. One of the best white Roses and long a favorite for corsage work. \$1.50 each; three or more, \$1.30 each.

MISCELLANEOUS ROSES

Rosa hugonis. Dainty, single yellow flowers on shrub-like plant. First to bloom in early Spring.

2 to 3 ft. \$1.75

Rosa rugosa. Very tough shrub Rose, completely hardy; upright in character but wide-spreading filling in well as hedge. Glossy foliage with large, intensely fragrant, pink flowers. Excellent for seashore.

18 to 24 in. \$1.50

Rosa rugosa alba. Same as *Rosa rugosa* but with pure white flowers.

18 to 24 in. \$1.50

TRAILING GROUND-COVER ROSES

Rosa barbariana (Excelsa). Small, double red flowers borne in considerable profusion. Shiny, bright foliage on stems which hug the ground and make excellent cover for banks or rocky areas. Need no Winter protection or elaborate care.

18 to 24 in., extra heavy. \$1.50 each, \$15.00 per doz.

Rosa wichuraiana. Clusters of starry white flowers. Glossy leaves. One of the best for bank covers.

18 to 24 in. \$1.00 each, \$10.00 per doz.

Rosedale's Landscape Service

Interesting side foundation planting with espaliered Pyracantha on chimney

Open, low planting emphasizes clean lines of contemporary home and doctor's office

Restful personnel garden at "Reader's Digest"

ONE of the most valuable services **Rosedale Nurseries** likes to make available to you is sound advice and help in landscaping your home and grounds.

Good landscaping—the right design executed with the most appropriate plant materials to convey the feeling of the design—is of major importance to any property.

Not only will you be happier with a carefully planned layout—even if you do only a part at a time—but the value of your property will be increased tremendously if well landscaped.

However, just any plants stuck in anywhere will not achieve this, even though the planting may look all right when first installed. Some plants grow faster than others, some require more care and attention. Wise counsel at the outset will save you money, disappointment and unnecessary loss of energy and your time.

To give you the best possible help in landscaping is our aim and we are most attentive to the training, experience and innate ability of our landscape representatives. Besides having a thorough knowledge of plant materials, these men must have a practical way of producing a suitable and beautiful design for your needs and appealing to your taste.

To guard you against misrepresentation we take the opportunity through this page to introduce you to our **only** landscape representatives.

Mr. Gerald D. Schade was educated in California and has been associated with **Rosedale Nurseries, Inc.** since 1952. However, he has been doing residential and commercial landscaping for over 10 years. In addition, Mr. Schade is now teaching, for the second year, the Adult Education Course in Landscaping and Gardening at Chappaqua.

Besides being thoroughly familiar with all types of plant materials available and hardy in this area, Mr. Schade comes to you as a homeowner who has a first-hand practical viewpoint of the homeowner's property problems.

Mr. John G. Kuck, a newcomer to our staff in 1954, was graduated from the Long Island Agricultural and Technical Institute in the School of Landscape Architecture. While serving as an assistant nursery foreman at another nursery, Mr. Kuck was tapped for military service, after which he joined **Rosedale Nurseries**. Mr. Kuck has served in our Sales Yard—a real apprenticeship in answering all manner of questions regarding plant materials, planting and soil problems. In addition, he has worked in the selection of stock. The coupling of formal training with practical experience in the fields makes Mr. Kuck especially adept and successful in his chosen field of landscape design. A native of this area, Mr. Kuck knows what grows here, the nature of Westchester and Putnam soils and the variegations of our climate.

IF YOU believe that you would like to avail yourselves of our Landscape Service, both Mr. Schade and Mr. Kuck stand ready to discuss your problems with you and explain fully, and without obligation, our Landscape Service Plan. Just call PLeasantville 2-1300 or MEdford 1-5353 for an appointment. We shall be happy to submit an estimate showing in detail the variety of plant, size and cost.

We welcome your visit to the nurseries and the inspection not only of the plants suggested but of any of our stock.

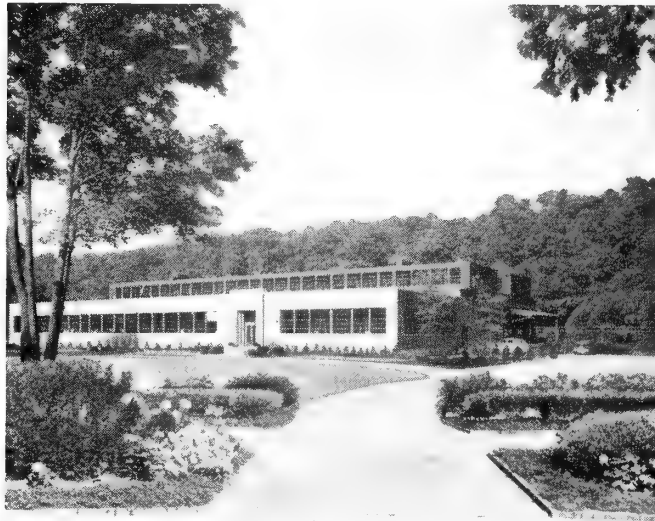

Charm and Delightful Choice of Plant Material Make This Cottage Picture Complete. Designed by Mary Deputy Cattell.

YOUR Landscape Architect's Plan Will Receive Most Careful Attention at Rosedale Nurseries

For many, many years it has been our pleasure to work with some of the finest Landscape Architects in the country, and the fact that they return season after season to have us execute their designs, is a source of real pride to us.

We will be happy to cooperate with you or your Landscape Architect in the selection of the finest and most suitable material for your site according to his specifications.

Our planting foremen are recognized by experienced Landscape Architects as the best in the Northeast — superior in workmanship, courtesy, cheerful cooperation and attention to detail, giving careful interpretation of the architect's plan.

FLOWERING SHRUBS

IMPORTANT TO THE WELL-DESIGNED LANDSCAPE — WHILE INEXPENSIVE

FLOWERING SHRUBS introduce one of the most inexpensive ways of obtaining better landscaping. They can increase the pleasures and beauty of your home by bringing you **colorful blooms; thick, green, Summer foliage; brilliant leaf-colorings in the Fall; fascinating branch patterns in Winter.**

They are especially effective and useful:

In beds, borders and hedges

As background for other planting

In groups or as specimens

As screen planting to bring Summer privacy

An unusually large number of varieties awaits you here at Rosedale and we invite you most cordially to come see and select.

(ALL FLOWERING SHRUBS ARE BARE ROOT (BR)
EXCEPT WHERE INDICATED B&B)

Planting Instructions: Bare Root, page 40; B&B, page 3

Acanthopanax Sieboldianus • **ARALIA PENTAPHYLLA**

An attractive, prickly shrub of dense growth. The lovely, bright green leaves of tropical appearance make it desirable for a hedge bank or slope planting. Thrives almost anywhere and will withstand city atmospheric conditions.
M 2 to 3 ft. \$1.50

Amelanchier canadensis

Small, graceful tree or large shrub of clumpy habit. Snowy flowers in early Spring and maroon fruit in June. F

2½ to 3 ft.	\$1.75
3 to 4 ft., B&B.	5.00
4 to 5 ft., B&B.	7.50
5 to 6 ft., B&B.	\$10.00 to 12.00
6 to 8 ft., B&B.	15.00 to 20.00

FLOWERING QUINCE (Chaenomeles Lagenaria)
(See page 29)

BUDDLEJA, ILE DE FRANCE

SWEET PEPPERBUSH

Buddleja • BUTTERFLYBUSH

Tiny, delicate florets cover the graceful spires of Butterflybush, so irresistible to butterflies. All are excellent as cut flowers in August and September. Delightful addition to the Shrub planting.

Charming	A glorious lavender-pink
Ile de France	Fragrant, brilliant rosy-purple flowers; large, flower spikes in profusion
Rosedale Red	A new really red Butterflybush; fragrant
White Cloud	Long, lovely, pure white sprays; fragrant
2 year.90c. each 6 in. pots. \$1.50 each

SPECIAL COLLECTION—BUDDLEJA: One each of these 4 fine varieties, \$3.50

Aronia arbutifolia • **Brilliant CHOKEBERRY**

Handsome, red Autumn foliage and brilliant red berries on shrub of modest, upright growth. F 2 to 3 ft. \$1.50

AZALEAS **Deciduous Types**

For your convenience, all Azaleas, both deciduous and evergreen types, will be found listed under **BROADLEAVED EVERGREENS.**

Berberis Thunbergii • **JAPANESE BARBERRY**

One of the most frequently used hedge materials. Red berries in Fall.

15 to 18 in.50c. each, \$45.00 per 100
18 to 24 in.60c. each, 55.00 per 100

B. Thunbergii atropurpurea • **REDLEAF BARBERRY**

Very similar to B. Thunbergii except for the ever-colorful leaves which are bright red in Spring; purple-red in Summer and blazing scarlet in Fall. Also berries heavily.

15 to 18 in.75c. each, \$70.00 per 100
18 to 24 in.90c. each, 85.00 per 100

COTINUS (SMOKE BUSH) (See page 30)

Chaenomeles • FLOWERING QUINCE

Chaenomeles lagenaria rubra. Bright red flowers; shiny green foliage. M 2 to 3 ft. \$1.75

CHAENOMELES HYBRIDS bear larger flowers in profuse clusters before the shining green leaves appear.

Afterglow (Plant Pat. 847). Double, snow-white, gradually becoming soft rose. A distinct novelty. 2 to 3 ft.

Blood Red. Large, deep red; early variety. 2 to 3 ft.

Candida. White. 1½ to 2 ft., 2 to 3 ft.

Cynthia. Soft, peach-pink. 2 to 3 ft.

Early Appleblossom. Delightful blend of light and deep pink. 1½ to 2 ft.

Enchantress. Luscious shell pink. 1½ to 2 ft.

Knaphill Scarlet. Vermilion-red flowers on a very low, mounded bush. 2 to 3 ft.

Pink Beauty. Clear pink. 18 to 24 in.

Pink Lady. Clear pink. 18 to 24 in., 2 to 3 ft.

Stanford Red. Tomato red. 1½ to 2 ft. 1½ to 2 ft. \$1.95 | 2 to 3 ft. \$2.50

..... **RED RUFFLES.** Dazzling brilliant red; large. 18 to 24 in.—\$2.50

Calycanthus floridus • SWEET SHRUB

This lovely, old-fashioned shrub with its chocolate-colored blossoms is a must for every garden. It derives its name from the spicy fragrance of the leaves and bark.

2 to 3 ft. \$1.75

Caryopteris • BLUE MIST

Blue, mist-like blooms from August to frost. M

2 year plants \$1.50 | Heavy, pot-grown, Summer only \$2.00

Chionanthus virginica • WHITE FRINGETREE

One of the most striking native small trees or shrubs. Handsome, glossy leaves and masses of loose panicles of feathery, snow white flowers in Midsummer. F

3 to 4 ft., BR. \$2.75 | 4 to 5 ft., B&B

\$5.00

Larger specimens upon selection

Clethra alnifolia • SWEET PEPPERBUSH

DEUTZIA GRACILIS (See page 30)

Spikes of fragrant white flowers in late Summer, on upright, slow-growing shrub; fine for naturalizing. S

18 to 24 in. \$1.25

2 to 3 ft., B&B. 2.75

3 to 4 ft., B&B. 3.75

Cornus Mas • CORNELIAN CHERRY

Generally first shrub to show color in Spring when twiggy branches are covered in a yellow mist. Cherry-like fruit.

3 to 4 ft., BR. \$3.50

DWARF WINGED EUONYMUS (See page 30)

FORSYTHIA, LYWOOD GOLD (See page 30)

Cotinus Coggygria • SMOKE TREE

A "mist" of grayish-purple created by fluffy clusters of flowers from June throughout the Summer, gives this small tree its name. F

3 to 4 ft., B&B.....	\$3.50	5 to 6 ft., B&B.....	\$6.00
4 to 5 ft., B&B.....	4.50	6 to 7 ft., B&B.....	8.50
7 to 8 ft., B&B.....	\$10.00		

Cotinus Coggyria, Royal Purple (SMOKETREE). Purple-leaved, purple-plumed form. Especially handsome.
18 to 24 in., potted—Summer only.....\$2.95

Deutzia gracilis • SLENDER DEUTZIA

A dwarf variety, with small, white flowers that completely cover it in May. S

12 to 15 in.....	\$1.25	18 to 24 in., B&B.....	\$2.50
15 to 18 in., B&B.....	2.00	2 to 3 ft., B&B.....	3.25

Deutzia gracilis rosea (ROSE-PANICLED DEUTZIA). Pink form of D. gracilis. Branches of this pink Deutzia are very graceful.
18 to 24 in.....\$1.75

Enkianthus campanulatus

A handsome, large shrub which retains its shape without pruning. Bunches of tiny, red-veined, white, bell-like flowers. Foliage a brilliant red in Fall.

15 to 18 in., B&B.....	\$3.50	18 to 24 in., B&B.....	\$5.00
------------------------	--------	------------------------	--------

Elaeagnus angustifolia • RUSSIAN OLIVE

A spreading bush with silvery-gray bark. Fragrant yellow flowers followed by orange fruit. It is fine for show, hedgerow or screen planting.
3 to 4 ft.....\$1.75

Euonymus

Euonymus alatus (CORKBARK EUONYMUS). A particularly striking shrub with corky, "winged" branches and scarlet foliage and berries in the Fall. F

18 to 24 in.....	\$1.75	3 to 3½ ft., B&B.....	\$5.00
2 to 3 ft., B&B.....	3.50	3½ to 4 ft., B&B.....	7.50
4 to 5 ft., B&B.....	\$9.00		

E. alatus compactus (BURNING BUSH). Similar to alatus in that it seems to be on fire because of its brilliant Fall coloring; however, much neater and slower in growth. Wonderful for specimen planting or may be used in the foundation or border for accent.

15 to 18 in.....	\$1.75	18 to 24 in.....	\$2.75
2 to 3 ft., B&B.....	\$4.00		

Exochorda Racemosa • PEARLBUSH

Slender, spreading shrub with long clusters of creamy white flowers pearl-like in the bud. Grows to 10 feet. F

18 to 24 in.....	\$1.50
------------------	--------

ROSE OF SHARON in the Nursery

BRILLIANT CHOKEBERRY (Aronia) (See page 28)

Forsythia

Forsythia intermedia, Spring Glory (PRIMROSE FORSYTHIA).

Truly the showiest Forsythia now known. The large, pale yellow flowers are of striking brilliance as Winter fades and Spring first appears. The masses of blooms are so crowded on the stems that the branches bow gracefully under the weight of their colorful burden. F

3 to 4 ft., BR.....	\$1.50	4 to 5 ft., B&B.....	\$4.50
3 to 4 ft., B&B.....	3.50	5 to 6 ft., B&B.....	6.00
6 to 7 ft., B&B.....	\$7.50		

F. intermedia spectabilis (SHOWY BORDER FORSYTHIA). A deeper, yellow form of semi-drooping character with the large flowers in great profusion. Long a favorite and very showy in group plantings.

3 to 4 ft., BR.....	\$1.35	4 to 5 ft., B&B.....	\$3.50
---------------------	--------	----------------------	--------

F. Lynwood Gold. A splendid new variety which originated in Ireland; very erect growing with branches virtually smothered with golden yellow flowers. Sensational. Limited supply.

3 to 4 ft., BR.....	\$2.00	3 to 4 ft., B&B.....	\$3.75
---------------------	--------	----------------------	--------

F. Suspensa (WEeping FORSYTHIA). This delightful form offers sweeping, arching branches to the ground—a fountain of color when in bloom.

2 to 3 ft.....	\$1.00
----------------	--------

Hamamelis vernalis • WITCH HAZEL

Irregular spreading shrub with large, oval leaves. Small, yellow flowers close to stem in November. Deep shade or full sun. M

2 to 3 ft., BR.....	\$2.00	5 to 6 ft., B&B.....	\$6.00
4 to 5 ft., B&B.....	4.00	6 to 7 ft., B&B.....	7.50

Hamamelis virginiana. Irregular, spreading shrub with large, oval leaves. Blooms with small yellow flowers close to stem in November. Thrives on deep shade or full sun.

3 to 4 ft.....	\$2.00	5 to 6 ft., B&B.....	\$4.00
6 to 7 ft., B&B.....	\$6.00		

Hibiscus syriacus • ROSE OF SHARON

A rather erect and tall-growing shrub of neat form. Flowers beginning in August and lasting usually until heavy frost. Excellent stock. M

Hibiscus syriacus, Boule de Feu. Double red.

2 to 3 ft.....	\$1.50
----------------	--------

H. syriacus coelestis. Single, blue; outstanding.

2 to 3 ft.....	\$1.50	3 to 4 ft.....	\$2.00
----------------	--------	----------------	--------

H. syriacus paeoniflorus (PEONY "ROSE OF SHARON"). Semi-double white with carmine center.

2 to 3 ft.....	\$1.50
----------------	--------

H. syriacus totus alba. Finest single white of all.

2 to 3 ft.....	\$1.50
----------------	--------

Heavy specimens priced on selection

H. syriacus, Wm. R. Smith. Single, pure white.

2 to 3 ft.....	\$1.50
----------------	--------

H. syriacus, Woodbridge. Very fine pink.

18 to 24 in.....	\$1.25
------------------	--------

FLOWERING SHRUBS—Continued

HYDRANGEA

- Hydrangea arborescens** (SUMMER HYDRANGEA). Large, pure white blooms in July and August. F
2 to 3 ft.\$1.50
- H. macrophylla** (GREENHOUSE HYDRANGEA). Bushy growth with pink or blue flowers in profusion, according to acidity of soil. F
5 year, heavy, B&B.\$5.50
- H. paniculata grandiflora** (PEEGEE HYDRANGEA). The best known Hydrangea with immense, conical, pink and white blooms from July to September. F
2 to 3 ft.\$1.50 | 3 to 4 ft., B&B.\$3.50
- H. p. grandiflora** (PEEGEE TREE FORM). The tree form can stand alone or in groups and need not be supported. Immense blooms weigh the branches down, creating a weeping tree effect. An old-fashioned favorite. F
2 to 3 ft. tree, BR.\$2.50 | 4 to 5 ft. tree, heavy, B&B.\$5.00
- H. Nikko Blue.** Both hardy and beautiful, withstanding temperatures of 20 degrees below. Tops die down to ground in Winter but crowns regrow into bushy shrubs the next season. Luxuriant foliage; masses of blooms.
2 year, potted.\$2.50

Hypericum

- Hypericum Hidcote.** Somewhat mounded in form of growth, with blue-green foliage. Delightful golden-yellow, Daffodil-like flowers in profusion in Midsummer, the period when shrub blooms are generally few. This new, exciting shrub acclaimed by *Herald Tribune* jury as outstanding new shrub for 1952. S
2 year, heavy plants.\$1.75
- H. prolificum** (ST. JOHNSWORT). A showy shrub of stiff, dense habit. Grows to 3 ft. Brilliant yellow flowers from July to September.
2 to 3 ft.\$1.75

Ilex verticillata • WINTERBERRY

- A fine, native shrub with bright red berries practically all Winter. Upright habit with black bark and clean, attractive foliage. Plant in groups for production of berries. M
2 to 3 ft.\$1.75 | 3 to 4 ft., B&B.\$3.50
4 to 5 ft., B&B.\$5.00

Kolkwitzia amabilis • BEAUTYBUSH

- A large, graceful shrub with slim, arching branches covered with pink flowers in June. We recommend it highly. M
18 to 24 in.\$1.50 | 3 to 4 ft., B&B.\$3.50
4 to 5 ft., B&B.\$5.00

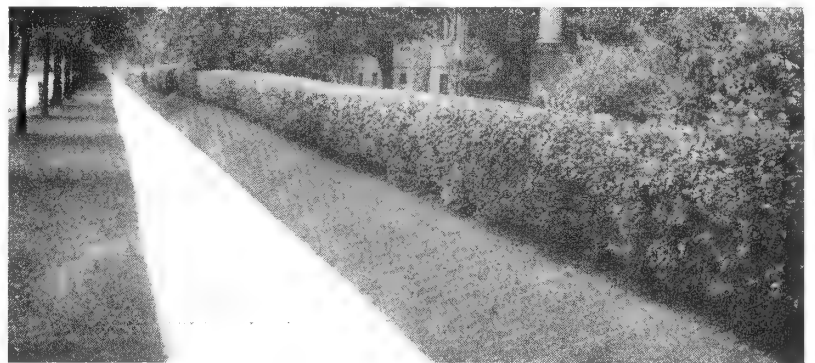

MOCKORANGE (*Philadelphus virginial*) (See page 32)

TREE HYDRANGEA—Fully developed in the nursery row

Ligustrum • PRIVET FOR HEDGES

- Ligustrum amurense** (AMUR PRIVET). True, hardy, upright variety with lustrous leaves. Good for quick-growing screen; plants will attain about 15 ft. in height. F
2 to 3 ft.\$4.75 per doz., \$32.50 per 100
- L. ovalifolium** (CALIFORNIA PRIVET). The form most usually used for hedges. F
18 to 24 in.\$2.75 per doz., \$17.50 per 100
2 to 3 ft.4.50 per doz., 25.00 per 100
3 to 4 ft.6.00 per doz., 35.00 per 100
- L. regelianum** (REGEL PRIVET). A low, spreading form — almost horizontal. S
2 to 3 ft.\$1.50 | 3 to 4 ft., heavy, B&B.\$3.50

LIGUSTRUM—Privet Hedge

Lindera benzoin • SPICEBUSH

- Native shrub with fringed yellow flowers in early Spring. Delicious, aromatic leaves and twigs. F
2 to 3 ft.\$1.75

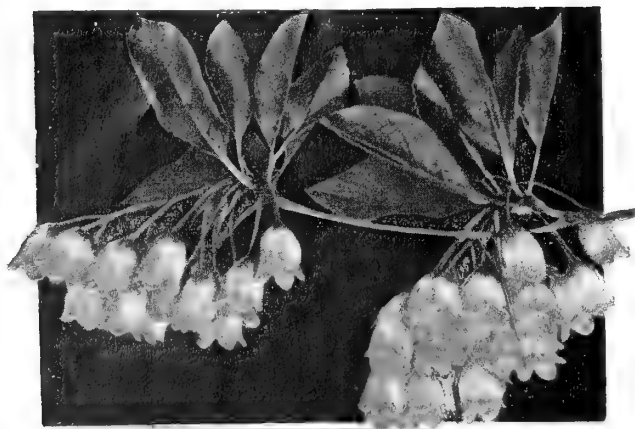

Lonicera • HONEYSUCKLE

- Lonicera Korolkowii Zabellii.** A shrub of medium growth, bearing abundance of bright red blossoms and bright red fruit. M
3 to 4 ft., B&B.\$3.50 | 4 to 5 ft., B&B.\$4.50
5 to 6 ft., B&B.\$6.00
- L. tatarica alba** (WHITE TATARIAN HONEYSUCKLE). This very adaptable plant bears white flowers and red fruit.
3 to 4 ft., BR.\$1.75 | 3 to 4 ft., B&B.\$3.50
4 to 5 ft., B&B.\$4.50
- L. tatarica rosea** (PINK TATARIAN HONEYSUCKLE). The same desirable plant as *alba*, but with pink flowers followed by red fruit.
3 to 4 ft.\$1.75

Photinia Villosa • CHRISTMASBERRY

- A large, interesting shrub. The glossy foliage turns brilliant red in Fall. Brilliant red berries persist into Winter.
3 to 4 ft.\$1.75 | 5 to 6 ft., B&B.\$7.50
4 to 5 ft., B&B.5.00 | 6 to 7 ft., B&B.10.00

FLOWERING SHRUBS—Continued

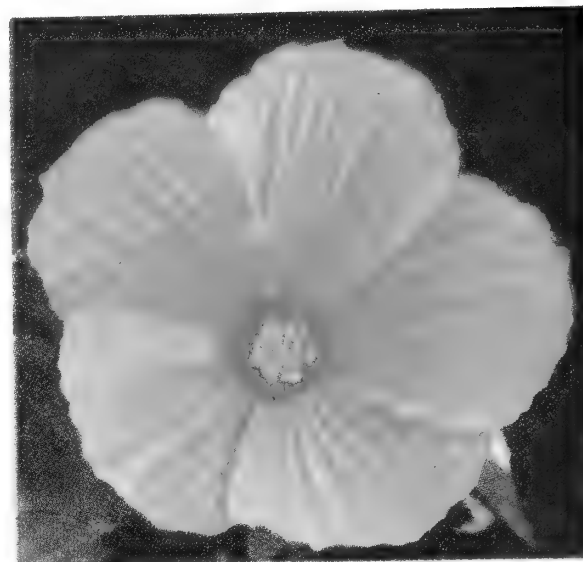

ENKIANTHUS (See page 30)

Prunus glandulosa • FLOWERING ALMOND

Profuse, double rosettes cover bare stems in late April or early May. Deep pink or white. M
2 to 3 ft. \$1.75

Prunus tomentosum • NANKING CHERRY

Very showy and very heavy blooming with white flowers before the leaves emerge. Large and very decorative light red fruit.
2 to 3 ft. \$1.75

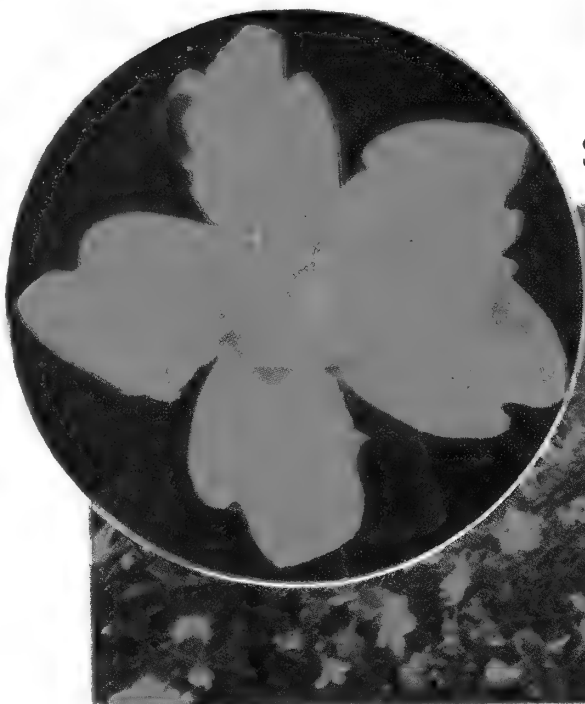

HIBISCUS WOODBRIDGE

Philadelphus • MOCKORANGE

Philadelphus coronarius (SWEET MOCKORANGE). Extremely fragrant variety of Mockorange. White blooms in May and June. F
2 to 3 ft. \$1.50

P. Minnesota Snowflake (Plant Pat. No. 538). This wonderful addition to the Philadelphus family produces a profusion of large, very double, pure white flowers of some fragrance. Truly "snowy" in effect. Bushy, shapely shrub. M
2 to 3 ft. \$1.75
4 to 5 ft., B&B. 3.75
5 to 6 ft., B&B. 5.00
6 to 7 ft., B&B. 6.50

P. virginialis (DOUBLE MOCKORANGE). Fine, double-flowering variety which blooms profusely; fragrant. M
2 to 3 ft. \$1.50
3 to 4 ft., B&B. 2.50
4 to 5 ft., B&B. 3.50
5 to 6 ft., B&B. 5.00

HYPERICUM HIDCOTE (See page 31)

Salix caprea • PUSSY WILLOW

Popular shrub for early Spring effect. Does well in dry as well as wet places. F
2 to 3 ft. \$1.50

Stewartia • pseudocamellia

A small, neat, tree-like shrub with beautiful, white, cup-shaped flowers. The bright green leaves turn brilliant orange and scarlet in the Fall. Excellent as specimen.
2 to 3 ft. \$2.50

Symphoricarpos • SNOWBERRIES

Symphoricarpos albus laevigatus (SNOWBERRY). Pink flowers and white berries in profusion. Thrives in shade and is excellent for hillsides. F
3 to 4 ft., BR. \$1.75

S. orbiculatus (CORALBERRY). Bears clusters of small red berries which remain most of the Winter. F
3 to 4 ft. \$1.75

Syringa • LILACS

Everyone loves Lilacs with their wonderful fragrance, array of colors, and assortment of uses. Specimen or hedge; close to the house or in the shrub border, they are equally effective. Or have you ever considered a LILAC WALK? A path lined with your favorite Lilac varieties.

Lilacs are easy to grow and we offer an especially large number of varieties, colors and sizes of the **FRENCH HYBRID LILACS**, famous for their richer and more fragrant blooms.

FRENCH HYBRID LILACS

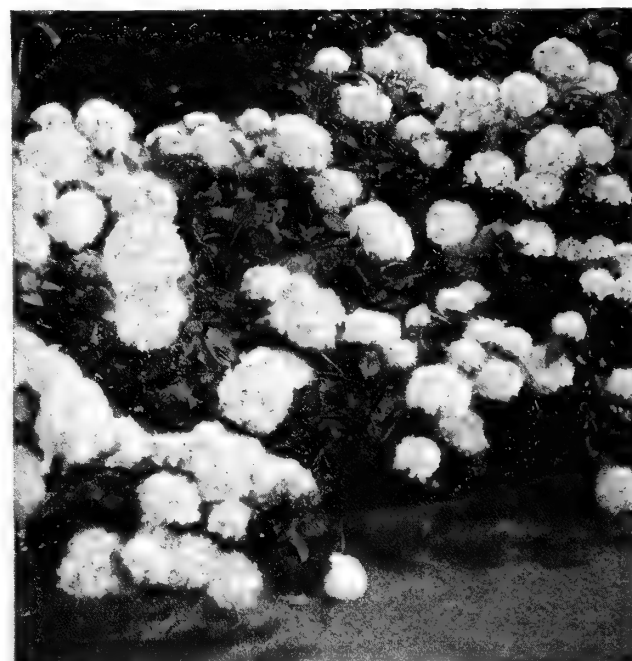

Improved hardy strains of popular old-fashioned Lilacs. Here is a list of favorite varieties so beautiful and so different you will want them all either as specimens or in a border planting. M
18 to 24 in. \$2.25 | 2 to 3 ft., B&B. \$3.50 | 3 to 4 ft., B&B. \$5.00
4 to 5 ft. Specimens, B&B. \$7.50 to \$10.00 | 5 to 6 ft. Specimens, B&B. \$9.00 to \$12.00
6 to 8 ft., B&B. 12.00 to 20.00 | Larger Sizes Priced on Application

Belle de Nancy. Double satiny rose. 5 to 6 ft., 6 to 7 ft., 7 to 8 ft.
Charles Joly. Purple-red; one of the best double reds. 4 to 5 ft., 5 to 6 ft., 6 to 7 ft.
Charles X. Single, rich purple-red. 4 to 5 ft., 5 to 6 ft., 6 to 7 ft., 7 to 8 ft.
Congo. Immense, single, wine-red. 18 to 24 in., 2 to 3 ft.
Edith Cavell. Double creamy-white. 18 to 24 in., 2 to 3 ft.
Ellen Willmott. Large, double white. 18 to 24 in.
Firmament. NEW. Beautiful sky-blue, single. 18 to 24 in.
Jan Van Tol. Single, pure white. 18 to 24 in.
Katharine Havemeyer. Double blue-violet. 2 to 3 ft.
Leon Gambetta. Double, mauve pink. 3 to 4 ft., 4 to 5 ft., 6 to 8 ft.
Lucie Baltet. Single, coppery-pink. 18 to 24 in.

(Continued on page 33)

Rhodotypos kerrioides • JETBEAD

Small, shapely shrub bearing white flowers in June and shiny, black, bead-like berries in Fall. Handsome foliage. Good in shade. M
2 to 3 ft. \$1.75 | 3 to 4 ft., B&B. \$3.50

HYDRANGEA, NIKKO BLUE (See page 31)

VIBURNUM TOMENTOSUM

Syringa vulgaris • COMMON LILAC

SYRINGA vulgaris (COMMON PURPLE LILAC). Considered by many as fine as any hybrid; bears large clusters of fragrant, purple flowers in May. M

3 to 4 ft. \$1.75 | 6 to 7 ft., B&B. \$12.00
5 to 6 ft., B&B. 9.00 | 7 to 8 ft., B&B. 15.00

S. vulgaris alba (COMMON WHITE LILAC). Fragrant, single white flowers. M

2 to 3 ft., BR. \$1.75 | 3 to 4 ft., B&B. \$5.00
4 to 5 ft., B&B. \$7.50

S. persica (PERSIAN LILAC). A graceful shrub with slender branches and single, pale lilac flowers.

3 to 4 ft. \$1.75

S. rothomagensis. A very old hybrid, acquiring considerable spread upon maturity. Red-violet flower trusses.

5 to 6 ft., B&B. \$6.00 | 6 to 7 ft., B&B. 9.00

We have a good stock of plants much larger than those listed here, and we shall be pleased to receive your inquiries or have you make a personal inspection of them.

Spiraea • SPIREA

Spiraea bumalda, Anthony Waterer (DWARF SPIREA). A small compact shrub with pink flowers in July. M

18 to 24 in. \$1.25 | 2 to 3 ft., B&B. \$2.75

S. prunifolia (TRUE BRIDALWREATH). Long racemes of pure white flowers in May. Small, glossy foliage. M. 2 to 3 ft. \$1.50 | 3 to 4 ft., B&B. \$3.00

S. thunbergii (THUNBERG SPIREA). Semi-dwarf, with very fine foliage and small white flowers; dense. M
2 to 3 ft. \$1.50

S. vanhouttei (VANHOUTTE SPIREA). Ever-popular with its abundance of small white flowers in clusters. F

2 to 3 ft. \$1.00 | 3 to 4 ft., B&B. \$3.00
3 to 4 ft., BR. 1.50 | 4 to 5 ft., B&B. 4.50

Stephanandra flexuosa • LACE SHRUB

Splendid shrub of erect habit with cut foliage. Striking at all seasons.

2 to 3 ft. \$1.50
3 to 4 ft., B&B. 3.00

Tamarix • TAMARISK

Pink Cascade (Plant Patent No. 1275). This lovely new shrub displays cascades of flesh-pink panicles in late Summer when few other plants are blooming. Compact in growth, it attains about 6 feet at maturity and should be pruned back heavily each Spring. Excellent for shore plantings. A delightful addition to the Flowering Shrub group.

2 to 3 ft. \$2.50

FRENCH HYBRID LILACS—Continued

Michael Buchner. Double, pale pink. 2 to 3 ft

Mme. F. Morel. Single, lavender. 18 to 24 in., 2 to 3 ft., 3 to 4 ft

Mme. Lemoine. Tall-growing, double white. 18 to 24 in., 2 to 3 ft., 3 to 4 ft

Monge. Single, claret-purple. 18 to 24 in., 2 to 3 ft.

Paul Thirion. Double, claret-rose. 18 to 24 in., 2 to 3 ft.

Pres. Grevy. Double, popular blue. 3 to 4 ft., 6 to 8 ft

Rhum von Horstenstein. Single, reddish-purple. 3 to 4 ft., 4 to 5 ft

Souv. de Ludwig Spaeth. Single, reddish-purple
18 to 24 in., 2 to 3 ft., 3 to 4 ft., 4 to 5 ft., 5 to 6 ft., 6 to 7 ft

Souv. de Thibault. Double, purple-lilac. 18 to 24 in.

HYBRID FRENCH LILACS

WEIGELA VANICEKII (See page 34)

VIBURNUM CARLESII (See page 34)

FLOWERING SHRUBS—Continued

SPIRAEA VANHOUTTEII

VIBURNUMS

ESPECIALLY DESIRABLE SHRUBS FOR LANDSCAPE USE

This group probably offers more desirable varieties for landscape use than any other family of Shrubs.

✓ **Viburnum Americanum** (AMERICAN CRANBERRYBUSH). A shrub of rather loose growth, particularly desirable for its scarlet berries from early August well into the Winter. Brilliant orange and red Fall foliage. F

18 to 24 in. \$1.50

V. Burkwoodi (BURKWOOD VIBURNUM). Often called an improved *Viburnum carlesii*—differing in growth, foliage and time of bloom, blooming earlier. Growth is vigorous and foliage glossy. Very fragrant, creamy-white flowers. S

18 to 24 in. \$5.00 | 3 to 3½ ft., B&B. \$9.00
2 to 3 ft., B&B. 7.50 | 4 to 4½ ft., B&B. 15.00
4½ to 5 ft., B&B. \$17.50

V. Carlesii (FRAGRANT VIBURNUM). Most fragrant of all flowering shrubs. A single blossom will scent an entire room. Fairly dwarf and slow in growth, it eventually attains 5 to 6 ft. in height. Creamy white blooms in considerable profusion. S

2 to 2½ ft., B&B. \$6.00 | 3½ to 4 ft., B&B. \$12.00
2½ to 3 ft., B&B. 7.50 | 4 to 4½ ft., B&B. 15.00
3 to 3½ ft., B&B. 9.00 | 4½ to 5 ft., B&B. 17.50

V. dentatum (ARROWWOOD). Bushy shrub with white flowers, blue berries. Fine for shade. F

2 to 3 ft. \$1.50 | 4 to 5 ft., B&B. \$3.75
3 to 4 ft., B&B. 3.00 | 5 to 6 ft., B&B. 5.00

V. dilatatum (LINDEN VIBURNUM). Finest of the Viburnums; white flowers followed by immense clusters of bright red berries making entire shrub appear red. M

2 to 3 ft. \$1.75 | 3 to 4 ft., heavy. \$3.50
Heavy Specimens. Priced on selection

V. plicatum (DOUBLE JAPANESE SNOWBALL). Showy white flowers in rounded clusters during June. Rich foliage and deep red coloring in the Fall. M

2 to 3 ft. \$2.25

V. prunifolium (BLACKHAW). Pure white flowers in May and June; blue-black fruits in late Fall. The vivid Fall foliage and the interesting patterns from irregular branching make this most desirable. F

2 to 3 ft., B&B. \$2.75

V. setigerum (TEA VIBURNUM). Large, compound white flowers followed by huge clusters of bright red berries. Probably most showy of all Viburnums when in berry. M

2 to 3 ft., BR. \$2.00 | 3 to 4 ft., BR. \$2.75

V. Sieboldii (SIEBOLD VIBURNUM). Vigorous shrub, attaining great size. Pink berries changing to black. Large, deep green, leathery leaves. F

2 to 3 ft. \$1.50 | 3 to 4 ft., B&B. \$3.50
4 to 5 ft., B&B. \$5.00

V. tomentosum (SINGLE JAPANESE SNOWBALL). White flowers in profusion, followed by red berries; foliage red in Fall. M

2 to 3 ft. \$1.50 | 3 to 4 ft., B&B. \$3.50
4 to 5 ft., B&B. \$5.00

Vaccinium corymbosum • **HIGHBUSH BLUEBERRY**

A very desirable, bushy shrub with glossy foliage turning brilliant red in Autumn. Creamy white flower. M

2 to 3 ft., B&B. \$3.50 | 4 to 5 ft., B&B. \$6.00
3 to 4 ft., B&B. 4.50 | 5 to 6 ft., B&B. 9.00

Vitex Agnus-castus latifolia **CHASTE TREE**

A graceful shrub with spires of lovely lavender-blue flowers in profusion from July to frost. Dies back in Winter similar to Buddleja. F

18 to 24 in. \$1.25

VACCINIUM (Highbush Blueberry)

Weigela • WEIGELIA

Weigela candida. Sometimes called Snow Weigela. Creamy-white trumpet-like flowers in early June.

3 to 4 ft., BR. \$1.75

W. rosea. Medium growth with rose-colored flowers in June.

3 to 4 ft., B&B. \$3.50 | 4 to 5 ft., B&B. \$5.00

W. Vanicekii. Similar to Bristol Ruby. A good bloomer, red flowers.

3 to 4 ft. \$1.75 | 4 to 5 ft., B&B. \$4.00

W. venusta (KOREAN WEIGELA). A graceful, hardy shrub, 5 to 6 ft., with charming pink flowers in heavy clusters.

2 to 3 ft. \$1.50

HIGHBUSH CRANBERRY (*Viburnum americanum*)

FRUIT TREES - BERRY BUSHES - GRAPES

FRUIT TREES give you—in addition to delicious, edible fruits—the same enchanting beauty when in bloom as any Flowering Tree, and they provide wonderful shade also. Try planting a fine Apple Tree on your terrace — you will love its character and beauty there. And with the new, simplified sprays for easy, quick care, you can now enjoy fruit, bloom, and leisure.

2-YEAR-OLD APPLE TREES

The best size to plant for a good-sized orchard but will take 4 years or more to bear. Plant 30 feet apart.

Selected, No. 1 Grade, 11/16 in. cal., 5 to 7 ft. Each \$2.50 Superior Strains—3 for \$7.00

- ✓ **Baldwin.** Red Winter Apple. Juicy, crisp, self-fruitful.
- ✓ **Cortland.** An all-purpose Winter Apple of improved McIntosh type. McIntosh flavor and quality but clings to tree more than McIntosh. Seldom needs a pollinizer.
- ✓ **Delicious, Red.** Large red Winter Apple of crisp, fine flavor. Cross pollinators: Cortland, McIntosh.
- ✓ **Delicious, Yellow.** Golden yellow Winter Apple. Firm, juicy. Self-fruitful.
- ✓ **McIntosh, Red.** Red Winter Apple. Tender, juicy. Bears fairly young. Cross pollinators: Cortland, Red Delicious.
- ✓ **Northern Spy.** Large, bright red Winter Apple of unsurpassed flavor. Bears well but takes a little longer to bear as tree matures slowly. Worth waiting for. Keeps very well and is excellent for cooking and eating. One of the finest of all Apples.
- ✓ **R. I. Greening.** Large, yellow-green Autumn Apple, unexcelled for cooking. Self-fruitful.

DWARF APPLES

These excellent varieties produce the same good quality and size of delicious fruit as the large, standard trees.

Baldwin, Cortland, Early McIntosh, McIntosh, Northern Spy, Red Delicious

2 year, 9/16 in. caliper—4 to 5 ft. \$3.75 each

PEARS

Selected, No. 1 Grade—2 Years Old—11/16 inch caliper—4 to 6 feet, \$2.50 each, 3 for \$7.00

- ✓ **Bartlett.** Most popular all-purpose Pear. Large, golden yellow. August-September.
- ✓ **Beurre Bosc.** Large russet type, white fleshed. Excellent quality and flavor. September.
- ✓ **Clapp's Favorite.** Like Bartlett—large yellow, but with brown flecks. August.
- ✓ **Seckel.** A most delicious variety produced in abundance. Small, russet. October.

DWARF PEARS

Here you have in dwarf stock some of the choicest varieties of Pear which produce fruit of the same excellent quality and size as the "regular size" trees.

Bartlett, Duchesse d'Angouleme, Clapp's Favorite, Seckel

2 year, 9/16 in. caliper—3 to 4 ft., \$3.00 each

PLUMS

Selected, No. 1 Grade, 2 Years Old, 11/16 inch caliper—4 to 6 feet, \$2.50 each, 3 for \$7.00

Plant 15 to 20 feet apart

- ✓ **Abundance.** Large, very tender, sweet, juicy, good for canning. Early August. Amber, turning to red.
- ✓ **Burbank.** Large, Cherry-red Plum about mid-August. Good producer.
- ✓ **Reine Claude (Green Gage).** Large, and rich-flavored in early September. Cross-pollinate with Stanley or other American or European variety.
- ✓ **Stanley.** Large, deep bluish-purple about early September. Excellent, sweet flavor.

For Cross-Pollination:

Abundance and Burbank are Japanese varieties and should be planted together.

Stanley, an American variety, is self-fruitful.

American and Japanese varieties do not mix.

APRICOT

- ✓ **Moorpark.** Large, round, orange fruit with red cheek. Rich flavored, juicy; self-fruitful. Plant 15 to 20 feet apart.

2 year, 11/16 in. caliper—\$2.50 each

CRABAPPLE

Selected, No. 1 Grade—11/16 in. caliper—5 to 7 feet—\$2.50 each, 3 for \$7.00

Plant 15 to 20 feet apart

- ✓ **Hyslop.** Brilliantly colored, purple-red Crabapple. Most popular Crab for preserving. Very hardy. Ripens about 2 weeks after Dolgo. Self-fruitful.

CHERRIES

2-Year-Old—11/16 in. caliper—4 to 6 feet—Top Grade—\$2.75 each, 3 for \$8.00

Plant any two Sweet Cherries for cross pollination. Plant Sour Cherries 15 to 20 feet; Sweet Cherries, 25 to 30 feet apart.

- ✓ **Black Tartarian.** Large, black sweet Cherry; juicy, very rich. Late June.
- ✓ **Governor Wood.** Large, light yellow and red sweet Cherry; very productive. June.
- ✓ **Montmorency.** Best sour Cherry; finest flavor; productive. July. Self-fruitful.
- ✓ **Schmidt's Bigarreau.** Very large purple red, sweet Cherry in July. Splendid flavor.
- ✓ **Windsor.** Delicious, large, almost black Cherry in July. Hardest Sweet Cherry.

NEW DWARF SOUR CHERRY

→ **NORTH STAR**

Ripens early July; bright red fruit changing to mahogany-red. Makes delicious wine-red pies. Very hardy grower.

2 year, 11/16 in. caliper—\$3.00

PEACHES

Selected, 2-Yr. Budded Trees—9/16 in. caliper 4 to 5 feet—\$2.00 each, 3 for \$5.50

All these varieties are self-fruitful. Plant 15 to 20 feet apart.

- ✓ **Belle of Georgia.** Favorite white freestone Peach, ripening late August.
- ✓ **Early Elberta.** Excellent, new yellow freestone. Late August.
- ✓ **Elberta.** Most popular yellow Peach. Juicy, freestone. Early September.
- ✓ **Golden Jubilee.** Best early golden-yellow Peach. Freestone. Mid-August.
- ✓ **Hale-Haven.** Beautiful, hardy yellow freestone. About late August.

ORANGE QUINCE

An excellent large, round, golden yellow fruit. Fine for jellies and jams. Self-fruitful. October. Plant 20 to 25 feet apart.

2 year.....\$2.50 each

CHINESE CHESTNUTS

Hardy, fast-growing trees bearing large, tasty, edible Chestnuts. Early producing; blight resistant; makes a good shade tree, too. 4 to 5 ft., \$3.75 each

HARDY GRAPES

- ✓ **Caco.** Finest wine-red Grape of sweet, delicious flavor; large, early September. 2 yr., \$1.00 each.
- ✓ **Concord.** Blue-black, mid-September. Most successful in this area. 2 yr., 75c. each.
- ✓ **Fredonia.** Earliest and best black Grape. Hardy, productive, juicy. 2 yr., 75c. each.
- ✓ **Golden Muscat.** New, luscious golden yellow type; vigorous, productive. 2 yr., \$1.25 each.
- ✓ **Niagara.** Extra large, sweet, white Grape, about mid-September. 2 yr., 75c. each.

BERRY BUSHES

PLANTING SUGGESTIONS

1. *Plough or spade entire planting area to depth of 8 inches or more.*
2. *Open a narrow trench and mix a liberal quantity of Espoma in bottom of trench.*
3. *Insert plants 2 to 3 feet apart. Rows should be 3½ to 4 feet apart.*
4. *Replace one-half soil and tamp firmly, adding more Espoma.*
5. *Water thoroughly twice weekly until started.*

FOR A FAMILY OF FOUR

We recommend the following number of plants, depending, of course, on your appetite for fruit:

	No. of plants
Blackberries.....	1 dozen
Blueberries.....	1 dozen
Currants.....	6
Gooseberries.....	6
Grapes.....	4 to 10
Red Raspberries.....	1 to 2 dozen
Black Raspberries.....	1 dozen

CULTIVATED BLUEBERRIES

For Extra Large, Juicy Berries of Delicious Flavor and Texture

Also, Blueberries make handsome landscaping plants with their compact, bushy form and colorful Fall foliage.

All plants are 3 years old, 1½ to 2 feet high, ready to bear.

Varieties

Early.....✓ **Weymouth**
Midseason.....✓ **Pemberton**
Late.....✓ **Jersey** ✓ **Rubely** ✓ **Stanley**

Each order will contain three or more varieties for cross pollination

\$1.40 each 3 for \$4.00 5 for \$5.50
12 for \$11.50

Larger Sizes Available—Priced on Selection

PLANT in hole large enough to accept roots spread out; mix plenty of peat moss or humus with soil; mulch.

RASPBERRIES

All 1-Year, No. 1 Transplants
6 for \$1.65, 12 for \$2.95

- ✓ **Bristol.** Highest quality, heavy producing Black Cap. Unexcelled for canning and freezing.
- ✓ **Indian Summer.** Red EVERBEARING of choicest flavor and quality. Produces in mid-June and again in early September. Hardy, vigorous.
- ✓ **Latham.** Delicious red berry; good texture. Heavy-bearing and hardy.

✓ **September.** NEW RED EVERBEARING. Fine flavored, heavy producer. Hardy, vigorous. **6 for \$1.95, 12 for \$3.45**

ALFRED BLACKBERRIES

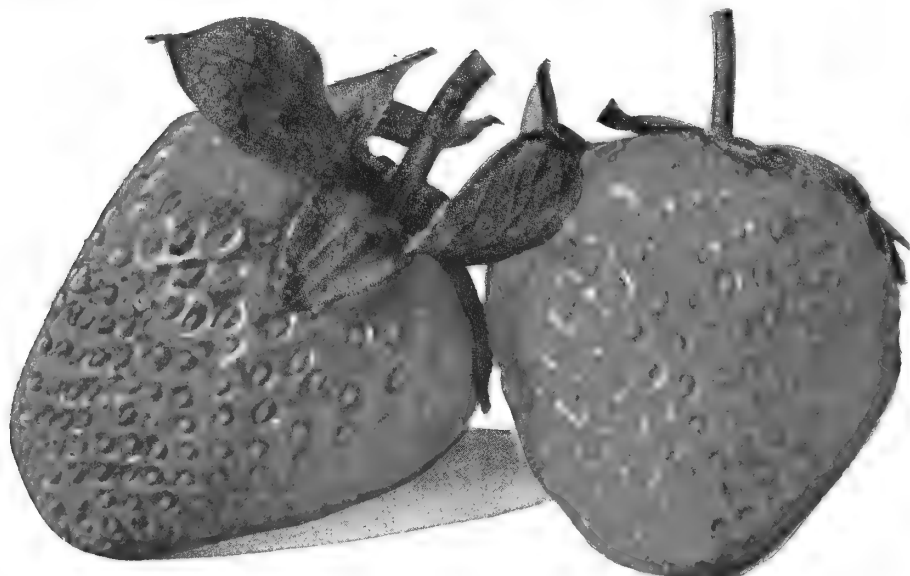

Tremendously large berries from 1½ to 1¾ inches long, practically free from seeds and extremely juicy. Heavy.
2 year transplants...6 for \$1.95, 12 for \$3.45

RED LAKE CURRANTS

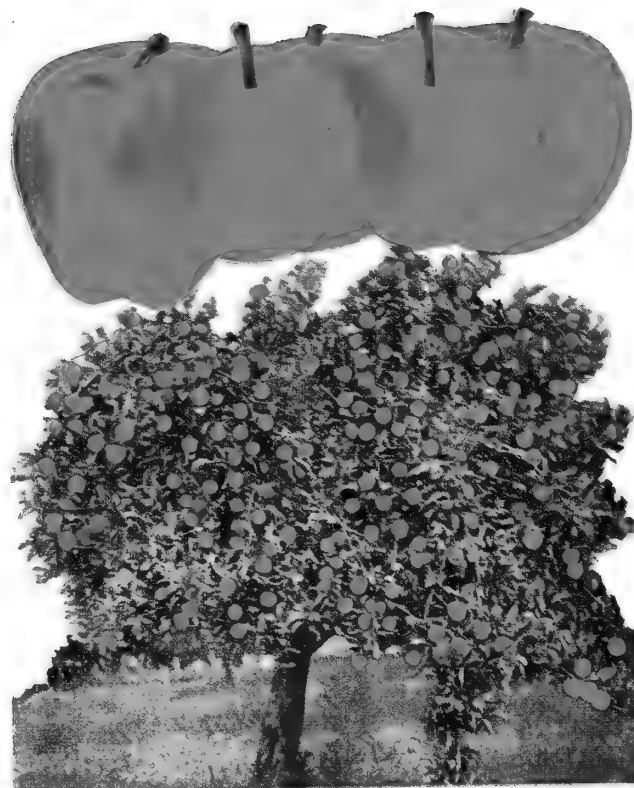

Finest of all Red Currants; unusually large and superior in quality. Heavy yields.
2 year.....70c. each, 3 for \$1.80

POORMAN GOOSEBERRIES

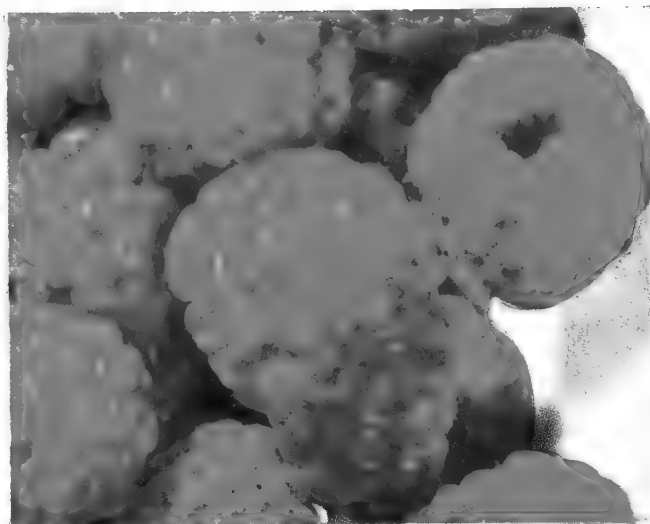

A large, red Gooseberry of excellent quality. Prolific; midseason.
2 year.....\$1.25 each, 3 for \$3.50

GLADIOLUS

These wonderful, full-flowering varieties will bring radiant color to your garden and long-lasting floral arrangements to your home. Probably the most inexpensive and easiest way to have a constant supply of cut flowers from Summer until frost.

PICARDY

All Our Bulbs Are Healthy, Thrip-Free, Top Grade and of Jumbo-Extra Large Size

Plant anytime from April to July for a bountiful return

PLANTING: Plant in full sun 3 to 6 inches deep, depending upon the size of bulb and texture of soil. Rich, well-drained loam with applications of fertilizer will encourage a more showy display of blooms. Bulbs should be dug in the late Fall after a killing frost—first cutting off the tops close to the ground. Dry and shake off soil. Keep in a dry place until replanting the next Spring.

All Varieties: 10 for 85c, 25 for \$1.85, 50 for 3.25, 100 for \$5.95

No less than 5 of a kind sent postpaid anywhere

Bouton d'Or. Canary yellow, ruffled.

Firmament. Lobelia blue; excellent cut flower.

Lavender Dream. Lilac-lavender; fine cutting variety.

Mansoor. Handsome, velvety ruby-red; beautiful floret formation.

Maria Goretti. Best pure white; very large.

Mrs. Mark's Memory. Rosy-purple.

New Europe. Glowing bright red; excellent color.

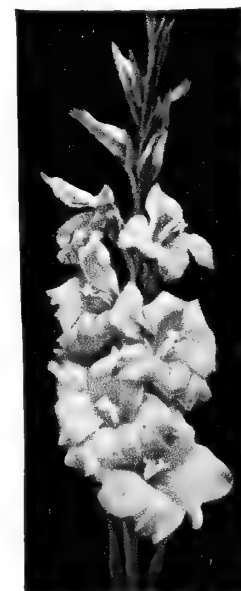

Picardy. This rich salmon Glad continues to hold top rating; most popular; immense spikes.

Rosa van Lima. Bright pink.

Spotlight. Large, ruffled deep yellow with scarlet blotch; outstanding color and variety.

SPECIAL RAINBOW COLLECTION

For an outstanding display of color — Good for a showy border and for cutting
50 JUMBO No. 1 GRADE GLADS—ONLY \$2.75 (Postpaid)

LAVENDER DREAM

LAWN SEED and LAWN CARE

Lawns Should Be Seeded in Spring or Fall

TO OBTAIN the lovely sweep of green of a good lawn, it is necessary to fertilize liberally every Spring and every Fall and it is desirable to add an application of organic fertilizer during June or July. It is preferable to apply when the lawn is dry.

LAWN SEED

Here at Rosedale we felt for some time that the soil of Westchester County required certain grasses in special mixture in order to produce a really good turf. Therefore, a few years ago, after considerable consultation and research we offered Rosedale brands according to our own special formulae. This Spring we have made certain improvements which we feel confident will result in even better lawns than heretofore.

ROSEDALE GREEN

This is a blend of the finest grasses obtainable, especially formulated to meet the exacting soil conditions of southeastern New York State. This is a permanent lawn seed exceptionally free from weed seed, and contains rapid-germinating Blue Grass for quicker, permanent grass.

For best results, we recommend sowing 6 lbs. per 1000 square feet.

2 lbs.	\$2.50	10 lbs. (two 5's).....	\$11.75
5 lbs.	5.95	25 lbs.	29.50
50 lbs.			\$58.00

ROSEDALE'S ALL-PURPOSE LAWN SEED

This is a blend of excellent high grade seeds using both permanent and quick-growing grasses to give a quick coverage, with the permanent grasses filling in a little slower. This is a clean seed of good quality which serves a very definite need in certain circumstances. Use at rate of 6 lbs. per 1000 square feet.

2 lbs.	\$2.10	10 lbs.	\$8.88
5 lbs.	4.55	25 lbs.	21.50
50 lbs.			\$84.00

We continue to carry a full line of Scotts Lawn Care Products and offer their Lawn Seed as one of the superior seeds on the market.

SCOTT'S REGULAR LAWN SEED

For lawns in full sun, light shade. Triple cleaned 99.91% weed free. Use at rate of 1 lb. per 250 square feet.

1 lb.	\$1.65
5 lbs.	7.95
25 lbs.	38.75

SCOTT'S SPECIAL LAWN SEED

Recommended for such locations as dense shade, poor, dry soils, terraces, playgrounds and other areas where growing conditions are not good and rugged turf is desired.

Use at rate of 1 lb. per 200 square feet.

1 lb.	\$1.25	5 lbs.	\$5.95
25 lbs.			\$29.50

SCOTT'S CLOVEX

Scott's quality Clover is blended with an organic carrier which make for more even sowing, preventing costly waste, and better blending with existing grasses. Minimizes patchiness.

12 ozs.	\$0.95
--------------	--------

MERION BLUE and ZOYSIA JAPONICA

Here is an unusual and worthwhile combination of grasses—Merion Blue, the finest of all "cool season" grasses mixed with Zoysia japonica the only known grass that thrives best in hot weather. These are blended with Illahee Fescus, a fine textured perennial grass.

Use at rate of 1 lb. per 700 square feet.

1 lb.	\$4.50	5 lbs.	\$19.50
------------	--------	-------------	---------

SCOTT'S

SCOTT'S PEST CONTROL

To keep in check Japanese Beetle grubs, Chinch bugs, etc. Keeps ants away also.

Box covers 500 square feet.	\$0.95
Box covers 2500 square feet.	3.50
Bag covers 11,000 square feet.	12.75

SCOTT'S 4-XD WEED CONTROL

For destroying broadleaved weeds such as Dandelions, Plantain, Buckhorn without harm to lawn grasses. Apply dry as it comes in package. Use 14 ozs. per 500 square feet.

Box covers 500 square feet.	\$0.49
Box covers 2500 square feet.	1.75
Bag covers 11,000 square feet.	4.85

SCOTT'S SCUTL

Controls fungous diseases and seedling sprouts of all weeds. **Scutl** works slowly thereby destroying the crabgrass a little at a time without producing the usual unsightly browning of the entire lawn as is often the case. Apply dry in two applications. Double the rate in July and August.

Box covers 500 square feet.	\$0.79
Box covers 2000 square feet.	2.75
Box covers 5500 square feet.	5.45
Bag covers 11,000 square feet.	9.95

SCOTT'S WEED and FEED

A dry compound combining 2,4-D and grass food for late Spring applications. Feeds grass as it destroys weeds.

Use 2½ lbs. per 500 square feet.

Box covers 500 square feet.	\$1.00
Box covers 2500 square feet.	2.95
Bag covers 11,000 square feet.	11.75

SCOTT'S ORGANIC

All organic fertilizer for lawns, Rose beds, flowers and vegetable gardens. **WILL NOT BURN.**

50 lbs.	\$3.95	100 lbs. (two 50's).....	\$7.85
--------------	--------	--------------------------	--------

SCOTT'S TURF BUILDER

This is the complete grass food and we recommend it highly. It is free from unpleasant odor, economical to use and easy to apply.

Use 10 lbs. per 1000 square feet.

10 lbs.	\$1.25	50 lbs.	\$3.95
25 lbs.	2.50	100 lbs. (two 50's)....	7.85

CARAC

CARAC 46-0-0—46% Nitrogen

Much more Nitrogen than other soluble fertilizers. Turns lawns green in 48 hours; keeps lawns green even during the hottest and driest of Summers.

1½ lb. can.	\$1.49	4½ lb. can.	\$3.49
------------------	--------	------------------	--------

CARAC BALANCED LAWN FERTILIZER

Super-Potent combination of the three basic fertilizer nutrients, properly balanced for the feeding of all grass. 30-10-15.

3 lb. can.	\$3.49
-----------------	--------

CARAC EVERGREEN & SHRUB FERTILIZER

Specially compounded fertilizer to make immediately available the necessary nutrients. 25-15-20.

1½ lb. can.	\$1.98	5 lb. can.	\$4.95
------------------	--------	-----------------	--------

CARAC ANT AND LAWN GRUB KILLER—72% Chlordane

Eliminates Japanese beetle grubs for 4 years or more; kills ants, chinch bugs, and other surface pests. Easily applied spray.

8 oz. jar.	\$1.95	16 oz. jar.	\$3.65
-----------------	--------	------------------	--------

Fertilizers - Garden Accessories Pest and Fungicide Controls - Plant Foods

WE LIST the materials which we consider essential to keep your plantings in good, thrifty condition. These products have been selected most carefully for their high quality, their dependable effectiveness, and their simplicity of use. We like to remember that while plants do have to have some attention to thrive and bloom and be enjoyed, you do want the leisure in which to enjoy them!

NOTE: For ease of reading we have grouped the products by manufacturer as much as possible. Where you find figures such as 5-10-5 after a description, this refers to the percentage of available nitrogen, phosphoric acid and potash in the product.

DU PONT

DUPONT ROSE DUST

This is an outstanding insecticide and fungicide especially prepared to care for Roses without injury to buds or foliage. Controls practically all Rose pests and can be used either dry as dust, or wet, as a spray. DuPont Rose Dust can be used all season safely and easily.

8 oz. gun.....	\$1.29	1 lb. can.....	\$1.69
12 oz. bomb.....	1.98	3 lb. bag.....	3.75

DUPONT FLORAL DUST

This is a complete control of many insects and diseases affecting flowers. (Controlling such things as leaf spot, mildew, aphids, beetles, etc.) Comes in Dust Gun for easy application or may be mixed with water and sprayed on. This is NOT a major operation!

8 oz. gun.....	\$0.98	1 lb. can.....	\$1.25
3 lb. bag.....			\$2.75

DUPONT VEGETABLE GARDEN DUST

A complete insecticide and fungicide for use on vegetables. Particularly effective in controlling sucking and chewing insects. (Controls aphids, beetles, leaf hoppers, rusts, mildew, etc.) Use as dust or spray; it mixes easily with water.

8 oz. gun.....	\$0.98
1 lb. can.....	1.25
3 lb. can.....	2.75

DUPONT FRUIT TREE DUST

For nice, well-formed, clean fruit, we recommend this dust. A simple program (outlined on the package) controls all insect pests.

1 lb. can.....	\$1.25
3 lb. bag.....	2.75

DUPONT LAWN WEED KILLER

A 2,4-D selective weed killer for controlling lawn weeds. Especially effective under hot, dry conditions. Simply mix with water and spray to rid lawns of Dandelions, Wild Onion, Plantain and many other weeds. Does not harm common lawn grasses.

8 oz. can.....	\$1.00	32 oz. can.....	\$2.95
----------------	--------	-----------------	--------

AMMATE—POISON IVY KILLER

Get rid of Poison Ivy, Sumac and other noxious weeds easily—usually in one application. (Not to be used on lawns.)

2 lb. bag.....	\$1.15	6 lb. bag.....	\$2.95
----------------	--------	----------------	--------

ESPOMA

ESPOMA

An organic fertilizer for Spring and Fall, with application at rate of 5 lbs. per 100 square feet. Fine quality for lawns, flowers, etc. 3-2-1.

10 lb. bag.....	\$0.95	50 lb. bag.....	\$2.60
25 lb. bag.....	1.75	100 lb. (two 50's).....	5.10

HOLLY-TONE

This is an exceptionally fine, all-organic fertilizer suited to acid-loving plants such as Hollies, Azaleas, Rhododendrons, Dogwoods, Blueberries, etc. Use approximately two handfuls per medium size plant. We recommend this as an excellent acid fertilizer. 4-6-4

10 lb. bag.....	\$1.45	25 lb. bag.....	\$2.75
50 lb. bag.....			\$4.25

ROSE FOOD

A correct balance of organic and inorganic materials formulated to meet the requirements of Roses.

5 lb. bag.....	\$0.95	10 lb. bag.....	\$1.55
25 lb. bag.....			\$2.85

AGRICO

AGRINITE

An all-organic fertilizer: 8¼% nitrogen, 100% organic. Desirable for Summer feeding of lawns and gardens. Won't burn and is odorless. Easy to apply by hand or spreader. Use at rate of 4 lbs. per 100 square feet.

25 lbs.....	\$1.65
50 lbs.....	2.95
80 lbs.....	4.45

AGRICO for BROADLEAVES

Although this was originally intended for Broadleaved Evergreens it has been found to be equally effective in its use on the needled Evergreens.

Use approximately 1½ lbs. per 1000 running feet.

5 lbs.....	\$0.65
10 lbs.....	1.25
25 lbs.....	2.00
50 lbs.....	3.15
100 lbs. (two 50's).....	6.25

AGRICO for GARDENS

This is a special-purpose fertilizer for flowers and larger yields of vegetables. Rake in after spading soil before planting. After planting, make an application from time to time using 40 lbs. per 1000 square feet. 5-10-5.

5 lbs.....	\$0.60	25 lbs.....	\$1.60
10 lbs.....	1.10	50 lbs.....	2.55
100 lbs.....			\$5.00

AGRICO for LAWNS, TREES and SHRUBS

A complete chemical fertilizer. Use 3 lbs. per 1 inch of diameter of tree. For lawns, use 30 lbs. per 1000 square feet.

5 lbs.....	\$0.60
10 lbs.....	1.10
25 lbs.....	1.75
50 lbs.....	2.75
100 lbs. (two 50's).....	5.40

GRO-WELL

BONEMEAL

Apply liberally—a long-lasting, slowly available organic fertilizer.

7½ lbs.....	\$1.15	25 lbs.....	\$2.45
50 lbs.....			\$3.90

GRO-WELL PULVERIZED COW MANURE

Where a natural organic fertilizer is needed, broadcast 10 lbs. per 100 square feet and rake into soil. Repeat two or three times during the growing season.

7½ lbs.....	\$0.90	50 lbs.....	\$2.90
25 lbs.....	1.75	100 lbs. (two 50's).....	5.25

GRO-WELL PULVERIZED SHEEP MANURE

An organic fertilizer for gardens. We recommend it particularly for Peonies. Use 10 lbs. per 100 square feet. Rake in before planting and repeat two or three times a season.

5 lbs.....	\$0.60	25 lbs.....	\$1.75
10 lbs.....	1.10	50 lbs.....	2.90
100 lbs.....			\$5.25

CARAC SPRAYERS

Even-Rain Lawn and Garden Sprayer—15 gallon. 1 qt. jar, 60 to 1 mixing ratio. \$3.95.

"4" Garden and Tree Sprayer—4 gallon. 22 oz. jar sprays all directions—up, down, sideways; reaches high foliage. \$4.95.

"6" Garden and Tree Sprayer—6 gallon. 1 qt. jar. Larger version of "4"; reaches 30 to 40 ft. On and off finger-tip control. \$9.95.

ORTHO

ISOTOX

A truly fine insect spray containing **Lindane** and **Malathion**. Kills aphids, Japanese beetles, Lacebug, Ants, Flies, etc. Residual kill effective up to two weeks. Use on Flowers, Fruit Trees, Shrubs and Vegetables.

4 oz. bottle.....\$1.00 | 16 oz. bottle.....\$2.95
8 oz. bottle.....1.85 | ½ gal. jug.....10.25

ORTHOCIDE

Outstanding fungicide containing **Captan**, one of the most effective chemicals available for control of plant diseases. Highly recommended. Can be used either as dust or spray.

8 oz. can.....\$1.25

BUG-GETA PELLETS

A very effective bait in pellet form which will control slugs, snails and cutworms. Broadcast bait in evening and sprinkle with water.

12 oz.....\$0.50 | 2 lbs.....\$1.00

MISCELLANEOUS ITEMS

BLACK LEAF "40"

A nicotine sulphate spray insecticide which quickly kills by contact plant lice, leaf hoppers, etc. Does not burn nor stain. Highly effective.

1 oz.....\$0.49 | 5 oz.....\$1.39

BORDEAUX MIXTURE

Especially beneficial in controlling many diseases affecting Fruit Trees, Grapes, Potatoes, flowers and shrubs.

1 lb.....\$0.80 | 4 lbs.....\$1.95

CLORO-DUST—5% CHLORDANE

Kills lawn, soil, garden and household pests. Apply 1 lb. of **Cloro-Dust** per 600 square feet for lawn and soil insects.

1 lb.....\$0.55 | 5 lbs.....\$1.25
25 lbs.....\$4.90

FERMATE

Outstanding fungicide for Roses and other flowers. Very effective.

8 oz.....\$1.00 | 3 lbs.....\$2.60

LEAD ARSENATE

Easily applied **poison** spray; effective on chewing insects.

1 lb.....\$0.90 | 3 lbs.....\$1.55

CABOT'S TREE PAINT

For healing all cuts and bruises on trees. Protects tree from decay and insects during healing period.

1 pint.....\$0.70 | 1 quart.....\$0.90

WILT-PRUF

Anti-transpirant for retarding water loss in plants. Permits Summer transplanting, prevents Winter-burn. A plastic latex spray which is milky-white when applied but dries to a colorless, slightly glossy film.

6 oz. squeeze bottle.....\$1.00 | 1 qt. bottle.....\$3.50

RIDZ

A dog repellent which really works. Sprayed on from "bomb".

12 oz. bomb.....\$1.49

Z. I. P.

The deer repellent that we use here in the nurseries. It works. Stops deer-damage to trees, shrubs and crops.

1 qt.....\$2.95 | 1 gal.....\$8.75
5 gals.....\$42.50

MICHIGAN PEAT MOSS

An especially fine grade of Horticultural Peat Moss recommended for Azaleas and other acid-loving plants. Nature's organic soil conditioner.

1 peck.....\$0.89 | 50 lbs.....\$3.95
25 lbs.....1.69 | 100 lbs.....4.49

BORDEN'S 38—NITROGEN 38%

Slow release "one-shot" nitrogen fertilizer for turf and ornamentals. One application lasts throughout the entire growing season. Won't bleach or wash away.

50 lb. bags.....\$17.00

HUMUS

A screened natural humus full of plant food and organic material. Especially recommended for mulching broadleaved evergreens and for mixing with soil in planting to better the soil where top soil is poor. Sold in bulk.

2 bu. bag.....\$1.95 | Per cubic yard.....\$9.50

HORTICULTURAL PEAT MOSS

Our Peat Moss is imported and of clean, weed-free material in compressed bales. One of the easiest and best mulching materials, Peat Moss preserves moisture in the soil, lightens heavy soils and reduces weed growth.

Large bale.....\$5.45

ROSEDALE "TAYLORED" PLANT FOOD

ROSEDALE'S Plant Food is 50% organic—ideal for tree, plant or lawn feeding. Immediate and long-lasting effects. This formulation, the result of many years experience in growing, is highly recommended. Safe and easy to use.

50 lbs.....\$3.95 | 100 lbs. (two 50's).....\$7.85

ROOTONE

↓ The plant hormone powder for better rooting of cuttings, grass seed, flower seed, bulbs, and vegetable seed; controls damping-off.

¼ oz. packet.....\$0.25 | 2 oz. jar.....\$1.00

ORNAMETAL SPRAY

A combination Insecticide and Fungicide for ornamentals including shrubs, evergreens, flowering and shade trees. Complete pest control is as important as good soil to achieve the "green thumb" appearance.

8 oz.....\$1.75 | 4 lbs.....\$9.75

CRAIG HERBICIDE 1

Prevents weeds before they grow; safe for garden or shrub planting.

4 oz.....\$1.50 | 1 lb.....\$4.49

WEEDONE

2,4-D with 2,4,5-T for efficient weed and brush control.

1 qt.....\$2.75 | 1 gal.....\$6.75
Weedone Sprayer.....\$0.59

ROSS ROOT FEEDER

Hose attachment for deep watering of trees and shrubs. Long lasting, rust-proof construction.

LYTESCAPE

Garden lighting fixtures by Lightolier — See page 19.

TRELLIS

Redwood and aluminum for durability, these trellises are available at the nursery to support your hardy climbing vines and Roses.

PATIO TUBS AND PLANTING BOXES

Generous-sized for good growth of your plants. See these Redwood or Cypress tubs and planters at the nursery.

SCARCE ITEMS

WE CALL ATTENTION on this page to some items so scarce for many years that only small sizes have been available. These especially useful items have constantly been purchased before they could make real sizable landscape plants. Now by increased planting and reserving certain blocks we have them in the sizes you have wanted. They include HEMLOCK, many forms of ILEX, and some special varieties of FLOWERING CRABAPPLE and DOGWOOD.

LOOK OVER THE LISTINGS, OR BETTER YET, DRIVE IN TO SEE THEM

Canadian Hemlock (Tsuga canadensis)

Present selections for screen and specimen planting are the finest in our 57-year history. See page 5 for details on sizes and prices.

Floribunda Crabapple (Malus floribunda)

From the many varieties of Crabapples, we have selected this as our favorite. From the interestingly twisted spreading habit, through the rose-pink flower buds opening white, to the miniature yellow Crabapples, this tree stands out. All of the charm and character of a lovely, mature Apple are available with even the young Floribunda Crabapple. We have carefully guarded one block to develop some larger specimens, now available up to 8 to 10 feet in spread. See page 13 for sizes and prices.

Boxleaf Holly (Ilex crenata convexa)

Outstanding for the intense green of its shining leaves, the Boxleaf Holly makes a perfect low, broad hedge or wide spreading specimen. Select now from the 12-15 inch spread for that small hedge or from specimens up to 4 feet in spread. See page 8 for sizes and prices.

JAPANESE HOLLY (Ilex crenata)

Japanese Holly (Ilex crenata)

Proven one of our most reliable basic evergreens for landscape planting, Japanese Holly is well adapted to full sun or deep shade. Our present collection includes many variants in leaf and form for special interest. Try one of these in espalier form on your brick or stone wall. Never before could we offer such a fine supply in the wide range of sizes. See page 8.

Planting Suggestions for Bare Root Material

1. Plant at once, digging hole deep and wide enough to admit roots completely spread out. If impossible to plant at once, open package, remove packing and "heel-in" plants in a protected location, being careful to thoroughly cover the roots with soil.
2. Loosen soil at bottom of hole, mix with small amount of ESPOMA.
3. Place plant in hole the same depth as previously planted in nursery. (Shows on trunk or main stem.)
4. Cover roots with soil mixed with liberal amounts of ESPOMA, firming soil with feet.
5. Complete filling hole with soil, leaving catch basin effect at top to hold water.
6. Water THOROUGHLY twice a week.

Green Island Holly (Ilex c. Green Island)

This newer, low-spreading form of Japanese Holly has been in great demand since its introduction for contemporary home plantings. The neat deep green mound hugs the ground with a sleek, modern look. See page 8.

Kousa Dogwood (Cornus Kousa)

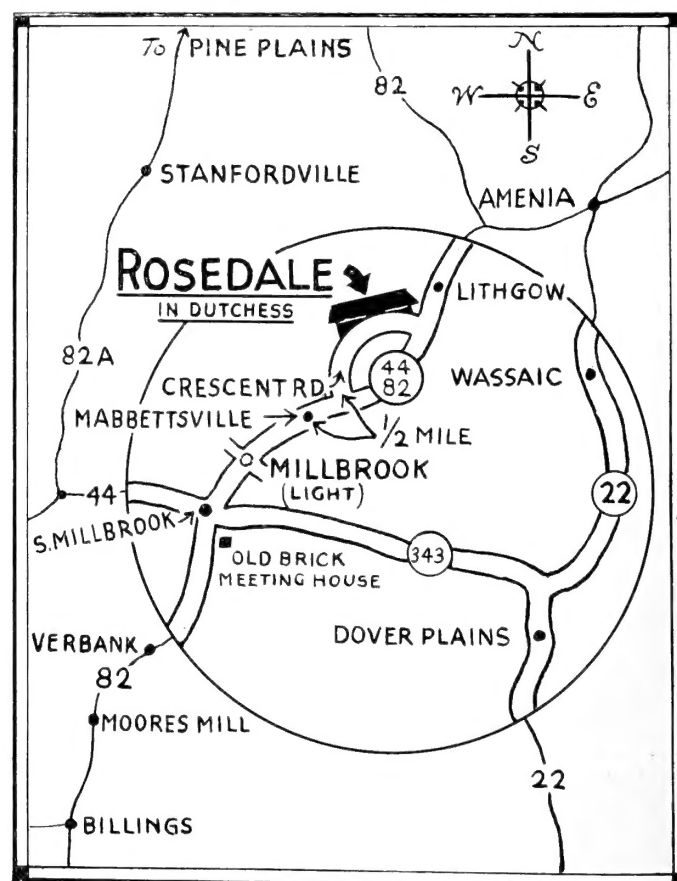

Comparatively little known, this outstanding Dogwood blooms after the leaves have emerged. Four pointed-petals form each lovely, star-like flower. Several stems from the base produce clump effects that are delightful. With the advent of Autumn the rich foliage takes on deep crimson and maroon tones before falling to expose the light grey twigs. See page 11 for sizes and prices.

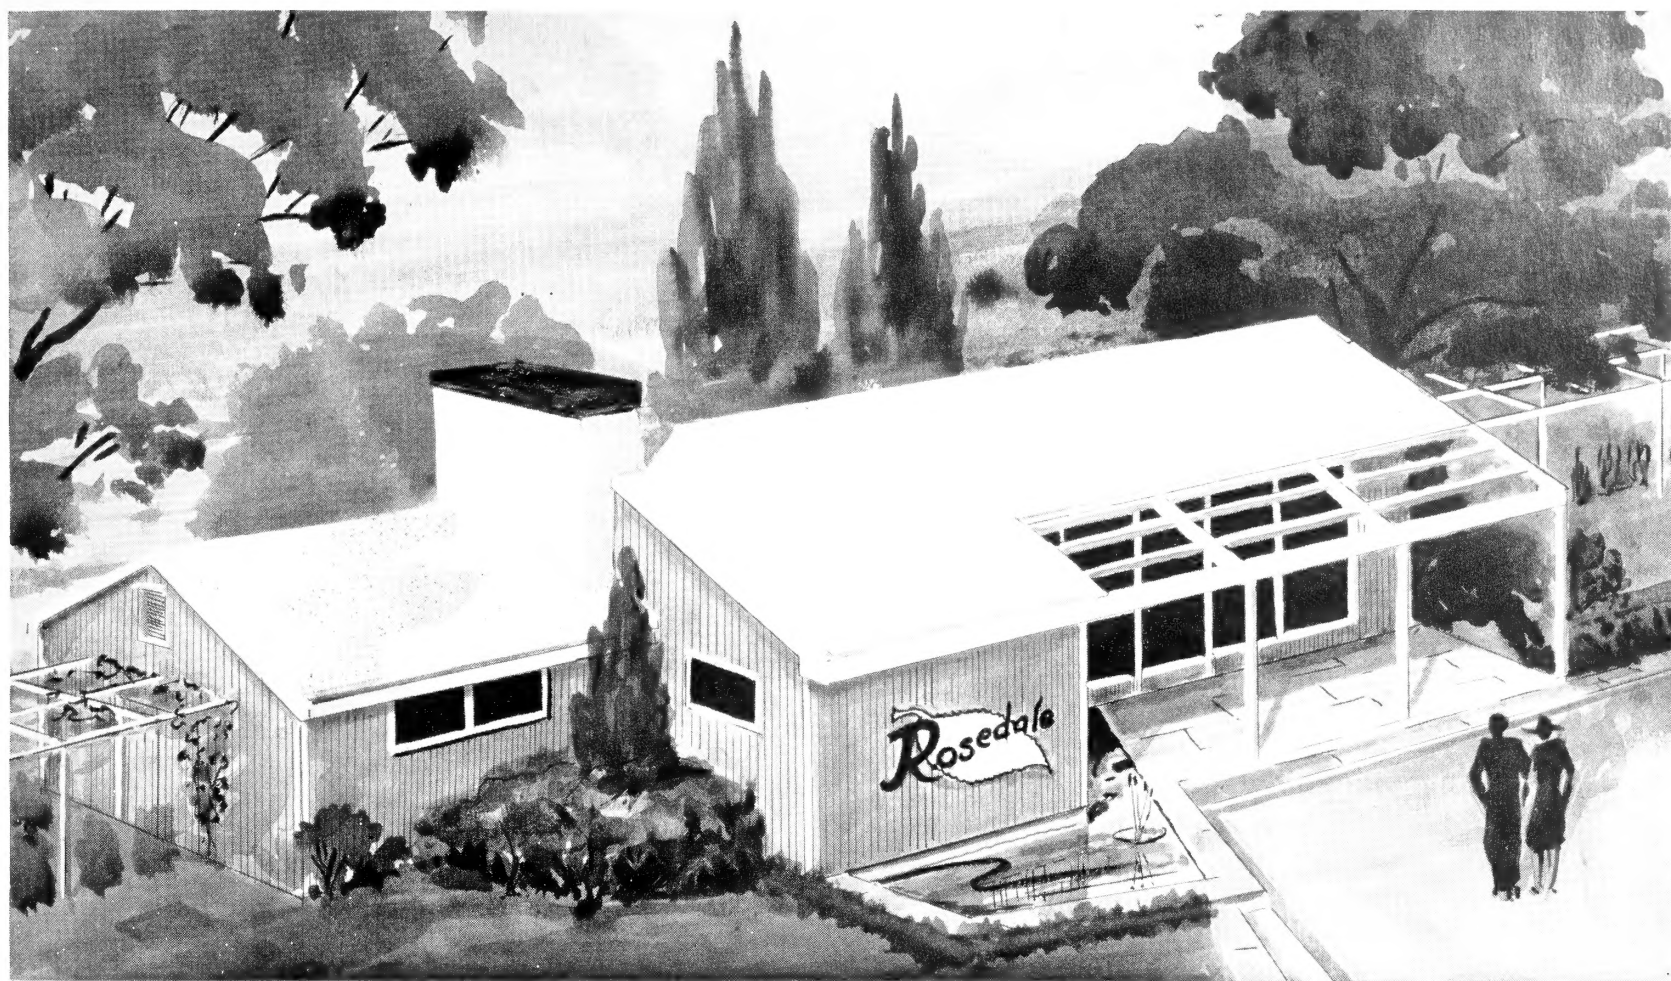

Almey Crabapple (Malus Almey)

An upright, open growing variety, Almey bears deep rose-pink blossoms followed by red tipped leaves. White star-shaped spot at base of each flower petal gives a striking two-toned effect. The large red Crabapples in Fall are particularly attractive. See page 13 for sizes and prices.

To Reach

ROSEDALE-IN-DUTCHESS

ROSEDALE-IN-DUTCHESS

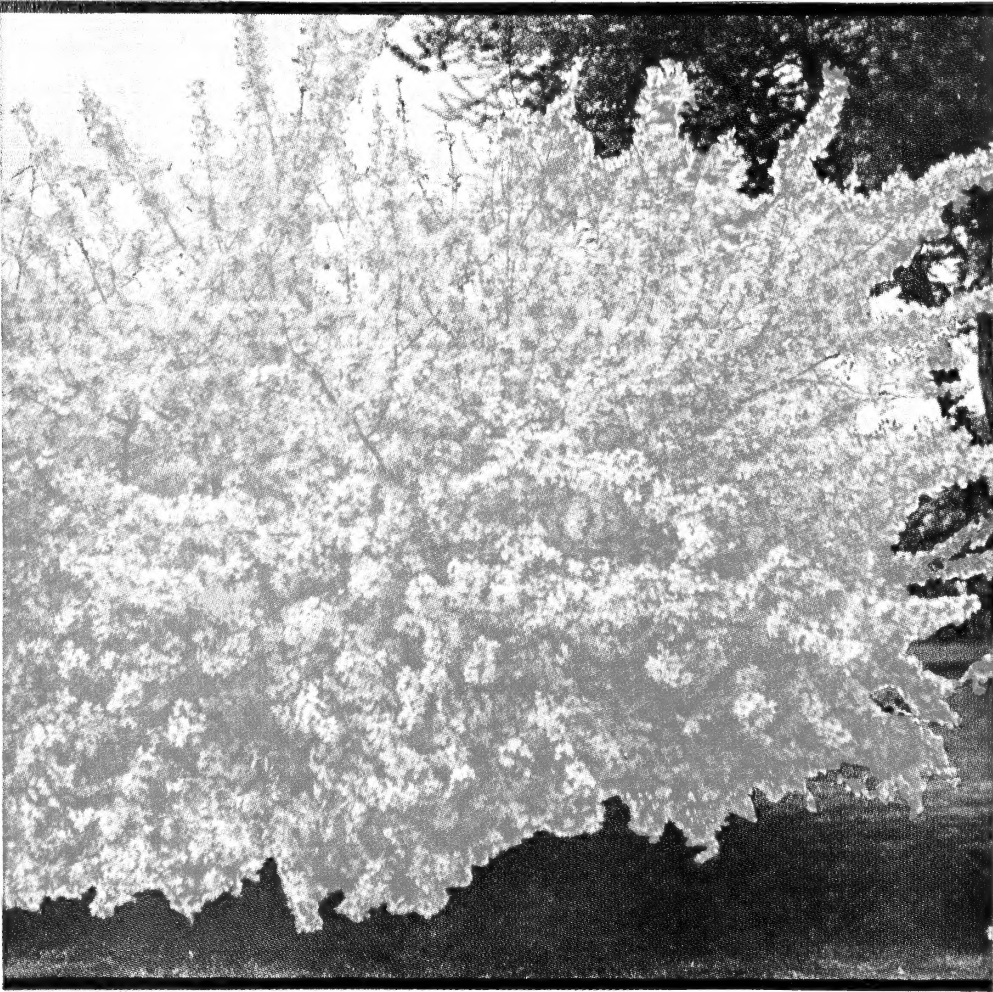

Route 44 • MILLBROOK, NEW YORK

A Dutchess County Garden Center and Nursery

FOR THE past four years we have been busy planting and developing our new 173-acre nursery at this new location. Much of the stock is now in sizes that are ideal for home landscaping. In addition, the more complete stock at Eastview may be ordered and will be delivered to Rosedale-in-Dutchess at least once weekly. Also, we are equipped to provide planting service where needed and to undertake landscape work.
